Reference is made to paragraph 5.6 of the tender specifications and clause 4.2 in the framework agreement.

The Supplier must have authorisation to produce, import or receive pharmaceuticals for wholesale distribution within the EU/EEA.

#### **III.1. Conditions for participation**

##### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

When submitting a tender, suppliers must use the European Single Procurement Document (ESPD) in the tendering system for the declaration regarding the compulsory grounds for exclusion set out in sections 135-136 of the Danish Public Procurement Act (udbudsløven) (the Act can be found at [www.retsinformation.dk](http://www.retsinformation.dk)). Further information on the completion and application of the ESPD in the tender process is available in the guide drawn up by Amgros in this respect and in the 'Instructions for the European Single Procurement Document' drawn up by the Danish Competition and Consumer Authority (Konkurrence- og Forbrugerstyrelsen). The successful tenderer(s) to whom the contracting authorities intend to award the framework agreement must also, before the award, provide documentation to the contracting authorities regarding the absence of compulsory grounds for exclusion as set out in sections 152-153 of the Public Procurement Act. The contracting authorities are not entitled to exclude a supplier who is subject to one or more of the mandatory exclusion grounds set out in sections 135-136 of the Public Procurement Act if the supplier has provided sufficient documentation that the supplier is reliable, even if the supplier is subject to one or more of the grounds for exclusion set out in section 138 of the Public Procurement Act. The Contracting Authorities reserve the right to carry out a so-called 'self-cleaning' process if relevant.

In relation to section II.2.4), it should be noted, that the contracting authorities have considered whether the procurement group could be further subdivided. The contracting authorities have deemed that this is not the case based on the considerations of economies of scale, which will not be realisable with a further subdivision as well as costs and patient safety considerations related to the subsequent management of contract- and pharmaceuticals.

In relation to sections II.1.5) and II.2.6) it should be noted that the estimated value indicated in section II.1.5) is the total estimated value of all procurement numbers (lots) for the duration of the framework agreement, including the option of renewal, see section II.2.7). The value is based on the AIP ('Apotekernes Indkøbspris' published by the Danish Medicines Agency) of the pharmaceuticals. It should furthermore be noted that the

estimated value is based on historic consumption data and that the actual purchase under a framework agreement may deviate significantly from the estimate, see section II.2.4), paragraph 5.6 of the tender specifications and clause 4.2 of the framework agreement. Questions concerning the tender documents must be submitted through the tendering system, see the provisions of the tender specifications in this regard.
