2.1. Procedure

Title: 9656 Framework Agreement for the provision of Electrical Services for Low Voltage Equipment

Description: This is a call to competition by Iarnród Éireann to establish a multi-party Framework Agreement for the provision of Low voltage Electrical Systems and Services (the “Contract”) in Ireland as advertised on e-tenders. Iarnród Éireann proposes to establish a multi-party framework agreement for electrical services for low voltage equipment (i.e. less than 1000V). IÉ plans to roll out a renewals program, which will see the modernisation of many traction assets located on the existing DART network over the next few years. The scope of the agreement will involve the renewal of LV services and LV equipment on or near the line and will also extend to other LV equipment located on the IÉ network. The extent and details of the works to be undertaken within the renewals program will vary from location to location. Project works shall be awarded in separate packages based on the “Call Off Contract” procedure set out in the Framework Agreement. Further specific details will be provided to the companies who are pre-qualified to the ITT stage.
