5.1.9. Selection criteria

Sources of selection criteria: European Single Procurement Document (ESPD), Notice

Criterion: Enrolment in a relevant professional register

Description of selection criterion: Tenderers are registered in a professional register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex.

Criterion: Enrolment in a trade register

Description of selection criterion: Tenderers are registered in a company register or a trade register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex.

Criterion: Authorisation or membership of a particular organisation needed for service contracts

Description of selection criterion: Is it necessary to have specific authorisation from a particular organisation in order to provide the service in the tenderer's home country?

Criterion: Authorisation or membership of a particular organisation needed for service contracts

Description of selection criterion: Is it necessary to have a particular membership in a particular organisation in order to provide the service in the tenderer's home country?

Criterion: Measures for ensuring quality

Description of selection criterion: For goods or services that are complicated, or that in exceptional cases shall be used for a particular purpose: Will the tenderer allow checks of the tenderer's production capacity or technical capacity and, where necessary, of the survey and research facilities that the tenderer has at its disposal and of quality control measures? The inspections shall be undertaken by the contracting authority or the contracting authority can leave it to a competent public body in the country where the tenderer is established.

Criterion: Samples, descriptions, or photographs without certification of authenticity

Description of selection criterion: Procurement of goods: The tenderer presents supplies that shall be delivered, requested samples, descriptions or photographs, which do not need to be accompanied by certificates that they are genuine.

Criterion: Samples, descriptions, or photographs with certification of authenticity for supply contracts

Description of selection criterion: When procurement of goods: If requested, the tenderer further declares that they will deliver the requested certificates that they are genuine.

Criterion: Certificates by quality control institutes

Description of selection criterion: Can tenderers submit the requested certificates issued by official bodies for quality control, and who can confirm that the goods, which are clearly identified by reference to technical specifications or standards, as determined in the notice or in the procurement documents, are in accordance with these?

Criterion: Certificates by independent bodies about quality assurance standards

Description of selection criterion: Can tenderers submit certificates issued by independent bodies that document that the tenderer fulfils the stated quality assurance standards, including universal design requirements?

Criterion: Certificates by independent bodies about environmental management systems or standards

Description of selection criterion: Is the tenderer able to submit certificates issued by independent bodies as documentation that the tenderer fulfils the stated environmental management systems or standards?

Criterion: Other economic or financial requirements

Description of selection criterion: This requirement only applies to Norwegian tenderers. Requirements: Tenderers must have their tax, payroll tax and VAT payments in order in accordance with the legal provisions and the tenderer must not have significant arrears. Any arrears or other irregularities must be justified. Documentation requirement: Tenderers shall document the requirement through the certificate "Information on tax and duties". The certificate shall be of the type "RF-1507" and not "RF-1316". Tenderers can order such a certificate from the Norwegian Tax Administration on behalf of their activities. Tenderers are asked to enclose the certificate in the tender or submit it on request. The tax certificate must not be older than six months calculated from the deadline for receipt of tenders. Read about the certificate here: <https://www.skatteetaten.no/skjema/opplysninger-om-skatt-og-avgift/>

Criterion: Other economic or financial requirements

Description of selection criterion: Requirements: Tenderers must have the financial capacity to execute the contract. The tenderer is required to be credit worthy, minimum A, in accordance with Dun & Bradstreet's service riskguardian suite (<https://riskguardian.bisnode.no/>), or have the financial capacity to execute the contract based on the contracting authority's discretion. Documentation requirement: The Contracting Authority will carry out their own assessment of the supplier's finances through RiskGuardian Suite. Tenderers can enclose other necessary information if they believe that RiskGuardian Suite does not provide a correct picture of the financial situation. The RiskGuardian Suite service includes all Nordic countries. As a general rule, the Contracting Authority will not accept credit ratings from other company and accounting information systems than RiskGuardian Suite due to equal treatment of the tenderers. Foreign tenderers outside the Nordic countries will, however, use and accept credit appraisal through Dun & Bradstreet's service Credit (<https://credit.dnb.com/>). Tenderers that the contracting authority cannot find a RiskGuardian Suite (or Credit for suppliers outside the Nordic countries), e.g. newly established tenderers who have not built up a basis for a credit rating, must enclose a declaration/guarantee from a parent company/owner/bank or similar financing institutions, regarding the company's financial and economic position.

Criterion: References on specified deliveries

Description of selection criterion: Requirements: Tenderers are required to have experience from at least 1 similar assignment in the last 3 years. Equivalent assignments means the

delivery of a complete hook vehicle (with a chassis, body and driver's cabin) as well as with a trailer. Documentation requirement: Complete the annex "The Tenderer's experience" or other document with equivalent information. If another document is used, the response shall be maximum 1 A4 page. The response shall not include a cover page or table of contents. Any pages after page 1 will not be considered. Any links etc. in the reply will not be considered.

5.1.10. Award criteria

Criterion:

Type: Price

Name: Price

Description: Tenderers shall fill in the attached price form in their cost calculations and submit it as an annex to the tender in Excel format. All fields in the attached price form marked with yellow shall be completed. Missing the price fields can cause difficulties in assessing the tender and the tender can then be rejected. All prices are in NOK, excluding VAT, including all direct or indirect expenses and duties that could be incurred in connection with the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition. Costs that the tenderer knows will be incurred, but that are not specifically stated in the tender, will be seen as included in the stated costs. Evaluation: The evaluation sum stated in the price form will form the basis for the evaluation. The lowest evaluation sum gives the best ranking under the criterion price. When assessing the price, a hybrid model with break point 1 will be used. The attached template for the evaluation model is attached. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 65

Criterion:

Type: Quality

Name: Quality

Description: Emphasis will be put on the following under this award criteria: The axis shall have a minimum of 9 tons axle pressure. The net boxes shall be placed on both sides (1 pcs per side), if possible. The fuel tanks for diesel and adblue shall be located on the same side. The chassis shall have a toolbox. Size based on what there is room for on the vehicle. The driver's cabin shall have the lowest possible step in. Extra lighting on the cab's roof: A. 2 high quality LED, mounted on a sun screen, or original mounted in a sun screen, or recessed into the roof. B. 3 position lighting LED in the middle of the sun screen or cottage roof. The driver's cabin shall preferably be an airbag, both in the front and in the side. Internal storage possibilities: Driver's cabins shall have cupboards in front of, or behind under roof, preferably both parts. Internal storage: There shall be rooms under the cabin in the driver's cabin and access is also wanted from the outside, from the vehicle's both sides. The lower bunk shall have a mattress that can withstand a minimum of 100 kg. The trailer shall have a minimum of 2 toolboxes. The chassis shall be metallised or equivalent. Evaluation: This award criteria will be assessed based on the tenderer's description of the award criteria. A total procurement assessment of the described system will be carried out during the evaluation. Best solution will be awarded the highest score (10). Other solutions will be awarded a point score relative to the best solution. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 5

Criterion:

Type: Quality

Name: Environment

Description: The award criteria consists of the following sub-criteria: The sub-criterion guarantee is weighted 60% of this award criteria. The sub-criterion spare-parts plan and proximity to the spare parts storage are weighted 40% of this award criteria. Orientation: Guarantee (60%): Tenderers shall state: what is included in the guarantee beyond the minimum requirements. This applies to Warranty on drivelines Rust and rearmament guarantee Exhaust and finishing system (Adblue, NOx sensors etc.) how long a guarantee will be given beyond 12 months. Spare parts plan and proximity to spare parts storage (40%) The contracting authority will depend on having the vehicle on the road at all times in order to ensure optimum logistics for our drivers. We therefore depend on having a workshop with maximum response time for the started diagnosis of vehicles, as well as maximum response times for parts. NB! Under this award criteria, the stated delivery times and response times shall start when the customer does not have a service and repair contract as this is an option and the customer may not use the option. Tenderers are requested to describe the following (this point is weighted 30% of the total 40%). We would like the shortest possible response and delivery times: which wearing and spare parts are guaranteed to be available at the local workshop (within 18 km from Alvikvegen 194 in Ålesund) what is the guaranteed delivery time for other wearing and spare parts. Wearing and spare parts means no service parts. Service parts means: filters and oil. Wearing and spare parts means other parts such as: Brake parts, air cushions, sensors (all types). Tenderers are requested to describe the following (this point is weighted 10% of the total 40 %). We would like the shortest possible response time: C. Describe the guaranteed response time from when the vehicle is received at the workshop until the tenderer starts the diagnosis and repairs. Evaluation: This award criteria will be assessed based on the tenderer's description of the award criteria. A procurement assessment will be made when evaluating the described system. For each sub-criteria, the best system will be given the highest score (10) and other solutions will be awarded a point score relative to the best solution. Scores achieved on each of the sub-criteria will be multiplied by interrelated weighting and added together. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.
