Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

Justification for the award of the contract without prior publication of a call for competition in the Official Journal of the European Union:

Directive 2004/18/EC

1) Justification for the choice of the negotiated procedure without prior publication of a contract notice in the OJEU in accordance with Directive 2004/18/EC

The works, supplies or services can be provided only by a particular economic operator for the following reason:

technical

Protected Mobility Team ("PMT"), as part of the UK Ministry of Defence ("MoD"), intends to award a contract to Ricardo UK Ltd for Post Design Services ("PDS") for the WMIK and Snatch vehicle fleets. The PDS Contract will run for a period of 24 months, with options to extend by a further 12 months. It is considered that, for technical reasons, this contract can be placed using the negotiated procedure without prior publication of a contract notice pursuant to Article 28(1) (e) of Directive 2009/81/EC (Regulation 16(1) (a) (ii) of the UK Defence and Security Public Contracts Regulations 2011). The PDS activity requires intimate knowledge of the vehicles, the design, interoperability and operating envelope to support the modification and safety aspects of these in-service platforms. Ricardo UK Ltd have exclusive access to the original confidential manufacturing data and associated technical knowledge needed to provide the Design Authority (DA) service required as part of the PDS requirement. Without access to this data and specific know-how it is technically impracticable for an alternative supplier to provide the MoD with assurance through DA certification that modifications to the platform will not compromise either operational effectiveness or the safety of the WMIK vehicle. In the case of the Snatch PDS requirement, NP Aerospace Ltd have agreed to provide technical assistance to Ricardo supported by an offer of an exclusive licence for the associated IP for the purposes of the proposed contract. Access to this technical support is essential to provide the level of PDS service required to the Snatch vehicle.
