III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Company registration certificate.

Evidence of enrolment on the professional or trade register, as required by national law in the country where the company is established.

Self-declaration of health, safety and environment policy.

Self-declaration of wage and working conditions.

III.2.2. Economic and financial ability

List and brief description of conditions: Value added tax certificate (National requirements).

Company tax certificate (National requirements).

Certificate issued by qualified authority which verify that the tenderer is not:

— Bankrupt;

— Subject to debt negotiations;

— In process of liquidation or forced liquidation.

The Awarding Authority will obtain information from Bisnode Credit AS. Credit rating A “worthy of credit“ with sub-appraisal on economy equivalent to “satisfactory“ and solvency equivalent to “acceptable“ will be required. Any sub-supplier the tenderer wants to use for energy trading management and/or communication with the network companies must also fulfil the requirements. For newly established tenderer where credit rating is not attainable, minimum 10 000 000 NOK in invested equity will be required. The above listed requirements will be withdrawn if the tender includes bank guarantee or guarantee from parent company which meets the specified requirements for credit ratings and sub-appraisals. The guarantee must include all obligations given in the contract.

III.2.3. Technical and professional ability

List and brief description of conditions:

During the delivery period, the tenderer must obtain consumer data from the network companies in accordance with the Norwegian Water Resources and Energy Directorate's current regulations.

The tenderer must have concession for delivery of electric power in the delivery period.

The tenderer's invoices must be sent electronically from the start of delivery.

Documentation of ability to deliver:

List of the principal deliveries (both public and private clients). Apart of the list must include minimum 3 physical deliveries in the period 2011 - 2013 (total of 3 deliveries for the three years -and whether the 3 deliveries have been effected in a single year or during the three-year period) containing minimum 120 measuring points per year related to these deliveries, with specification of number of measuring points, dates and recipients. A part of the list must include the principal deliveries of energy trading management effected in the period 2009-2013 with a statement of volumes, dates and recipients.

It is required that the tenderer has a minimum of 5 years experience as a supplier of energy trading management.

The person who daily shall perform energy trading management must have a minimum of 4 years of practical experience with these type of tasks. Tenderer must deliver at a description of the organization which manages energy trading and CV of the person who will perform the energy management.
