The contracting authority is purchasing on behalf of other contracting authorities: no

**Section II: Object of the contract**

---

**II.1. Description**

**II.1.1. Title**

E6 Vassmarka — Ronglan.

**II.1.2. Type of contract and place of performance or delivery**

Works

Execution

Main site or place of performance: Levanger municipality, Nord-Trøndelag.

NUTS code NO Norge

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**

**II.1.4. Short description of the contract or purchase(s)**

The contract is for the construction of an exit free E6 with a central reservation from Vassmarka to Ronglan. Overtaking lanes are to be constructed on a stretch in both directions. The existing E6 must be expanded for the entire stretch in order to fulfil the current

requirements for curvature and width. Due to the proximity of the railway, some of the expansions must be made towards the west. This means that the local road must be permanently altered in some places. A temporary diversion road must be constructed at the north end to lead traffic outside the curve with a large rock cutting.

The expansion of the E6 means that the existing culverts and bridges must also be extended. The Norwegian Public Roads Administration plans a 2 year construction period, with the southern part being completed in the 1st year and the northern part being completed in the 2nd year.

There are challenges connected to heavy traffic on the E6, proximity to the railway and bad ground and a lot of blasting in some stretches.

**II.1.5. CPV code(s)**

45000000 Construction work

**II.1.6. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

**II.2. Total value of the contract/lot**
