**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

74-BYM-2020 Priority System for Traffic Signals

Reference number: 74-BYM-2020, sak 20/12875

**II.1.2. Main CPV code**

72000000 IT services: consulting, software development, Internet and support

### **II.1.3. Type of contract**

Services

### **II.1.4. Short description**

Oslo Municipality, c/o the Agency for Urban Environment (BYM) and the Norwegian Public Roads Administration (SVV) invite tenderers to an open tender contest for the procurement of 74-BYM-2020 priority system for traffic signal. BYM is responsible for the municipality's traffic signals on roads. This involves responsibility for, amongst other things, traffic safety and accessibility on the municipal road network. The Norwegian Public Roads Administration has equivalent responsibilities for the national roads network. In order to improve accessibility for public transport in Oslo and parts of Viken, a new priority system is needed for the traffic signals.

### **II.1.5. Estimated total value**

### **II.1.6. Information about lots**

This contract is divided into lots: no

## **II.2. Description**

### **II.2.2. Additional CPV code(s)**

34923000 Road traffic-control equipment, 48100000 Industry specific software package, 72000000 IT services: consulting, software development, Internet and support, 72200000 Software programming and consultancy services, 72240000 Systems analysis and programming services, 72243000 Programming services

### **II.2.3. Place of performance**

NUTS code: NO01 Oslo og Akershus

Main site or place of performance: Oslo and Viken.

### **II.2.4. Description of the procurement**

In order to improve accessibility for public transport in Oslo and parts of Viken, a new priority system is needed for the traffic signals. The current priority system must be replaced and a new system shall be procured to process data from the public transport units so that they receive priority through the traffic signals. The system must process priority messages to approx. 400 traffic lights, and a roll-out is planned for the period 2020-2022. All necessary equipment, installation, testing, error recovery and commissioning of the equipment and software must be included in the contract. The disassembly of the current equipment is not included in the contract. The contracting authority also need maintenance services for software and any equipment that are procured in relation to the new priority system. See Annex 1 in SSA-T and SSA-V The contracting authority's requirements specification for further information.

There are two different alternatives for the system architecture that are described in SSA-T in Annex 3 under point 1.1.3. Tenderers can submit a tender that uses alternative solution A — production of RSMP messages or alternative solution B — installation of new equipment in a control cupboard. If a tenderer would like to submit a tender for both alternatives, the Annex to SSA-T must be submitted for both solutions. It must be clear which solution Annex 2 The tenderer's solution specification and Annex 7 Total price and price terms apply for.

### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.6. Estimated value**

### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Start: 02/11/2020 End: 31/12/2022

This contract is subject to renewal: no

### **II.2.10. Information about variants**

Variants will be accepted: yes

### **II.2.11. Information about options**

Options: no

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **II.2.14. Additional information**

The contract start-up date is tentative. The service shall be carried out in the period 2020-2022, the outrolling period.

The contract period for SSA-V 'Maintenance agreement', is stated in Annex 4 to the contract. See the tender documentation point 2.6 for further information on alternative tenders and the minimum requirements.

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Requirement: tenderers must be a legally established company.

Documentation requirements: Norwegian companies: company registration certificate.

Foreign tenderers: verification that the company is registered in a trade index or a register of business enterprises as prescribed by the law of the country where the company is established.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Credit evaluation/rating, not older than 6 months and which is based on the last known accounting figures. The rating must be carried out by a publicly approved credit rating institution.

The contracting authority reserves the right to obtain a separate credit evaluation if necessary.

Minimum level(s) of standards possibly required:

Tenderers must have the economic capacity to carry out the contract work and be credit worthy.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

1) An overview of the three most important relevant completed deliveries. The review must state the name of the contracting authority, the nature of the work, scope and value, as well as the time and location of execution of the work.

2) (a) A description of the personnel or technical entities that the tenderer has at their disposal for fulfilment of the contract.

2) (b) A description of the tenderer's average annual workforce and the number of employees in management during the last 3 years.

2) (c) A description of the proportion of the contract that the tenderer is considering to subcontract out.

3) A description of the supplier chain management and the tracking systems that the tenderer will use to fulfil the contract. If a tenderer is certified, a copy of a certificate issued by the certification body shall be submitted.

Minimum level(s) of standards possibly required:

1) Tenderers must have relevant experience from similar contracts.

2) Tenderers must have sufficient capacity and competence to complete the assignment.

3) Tenderers must have a quality assurance system.

### **III.2. Conditions related to the contract**

#### **III.2.2. Contract performance conditions**

The contractual relationship will be regulated by the attached SSA-T and SSA-V contracts with annexes.

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Open procedure

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

### **IV.2. Administrative information**

#### **IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 08/09/2020 Local time: 12:00

#### **IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

#### **IV.2.4. Languages in which tenders or requests to participate may be submitted**

Norwegian

#### **IV.2.6. Minimum time frame during which the tenderer must maintain the tender**

Duration in months: 3 (from the date stated for receipt of tender)

#### **IV.2.7. Conditions for opening of tenders**

Date: 08/09/2020 Local time: 12:00

## **Section VI: Complementary information**

---

### **VI.1. Information about recurrence**

This is a recurrent procurement: no

### **VI.3. Additional information**

### **VI.4. Procedures for review**

**VI.4.1. Review body**

Official name: Oslo Tingrett

Town: Oslo

Country: Norway

**VI.5. Date of dispatch of this notice**

26/06/2020
