2015/361 Framework agreement for the purchase of measurement technical equipment.

**II.1.2. Type of contract and place of performance or delivery**

Supplies

Purchase

Main site or place of performance: Ås, Akershus.

NUTS code NO012 Akershus

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**

The procurement involves the establishment of a framework agreement

**II.1.4. Short description of the contract or purchase(s)**

NIBIO has a continuous requirement for purchasing measurement technical equipment, such as loggers with accompanying sensors to Research and Development projects, as well as monitoring projects. Typical monitoring projects are field assignments in connection with development projects in the transport sector where the amount of water — water quality and meteorological parameters shall be registered.

Another different and large part of the contract is the delivery of equipment for monitoring

cultural monuments in both saturated and unsaturated zones. NIBIO wishes to enter into a framework agreement with a supplier with long experience from equivalent deliveries, and high competence in the measurement technical equipment area. A description of the delivery is further described in annex A; requirement specification.

The assignments will, to a large degree, vary from project to project. NIBIO therefore wishes to engage suppliers that can deliver the equipment in accordance with the varying requirements, and that can provide easily good adapted solutions. The suppliers shall not only deliver the equipment, but also function as consultants for the contracting authority in regards to selecting the right equipment for the job, but also help the contracting authority to see possibilities in a marked in rapid development.

The tenderers must have high professional competence in a wide range of monitoring and registering ground water, sewage water, water quality, and meteorological parameters. This coincides with NIBIO tasks. Set-up and integration/solution for software and communication system for transferring data to the contracting authority's IT-web system/database must be included in the tender. See further description in annex A; the requirement specification. The tenderer must document and give a detailed description in accordance with the stated requirements. The equipment shall comply with the current ISO 9001:2008 specifications. All tenders and communication regarding the tender contest are expected to be submitted through Merzell. Please contact Merzell Support if you do not use Merzell, or you have any questions concerning how you should upload your Tender, digital signing, or submit a Tender, please contact Merzell Support, tel. No (+47) 21 01 88 60.

It is recommended that the tender is submitted well before the deadline for receipt of tenders. In the event that additional information from the Contracting Authority leads to you wanting to revise your tender before the tender deadline expires, you can go in and open the tender, make changes and resubmit right up until the tender deadline expires. The last received tender is regarded as the tender of record. Late tenders will be rejected.

Note: Digital signing is required when submitting tenders for this procurement. The tenderer has the full responsibility to make sure that the tender is signed and submitted on Merzell, within the tender deadline.

38290000 Surveying, hydrographic, oceanographic and hydrological instruments and appliances, 35125100 Sensors, 38100000 Navigational and meteorological instruments, 38120000 Meteorological instruments, 38126000 Surface observing apparatus, 38300000 Measuring instruments, 38410000 Metering instruments, 38421100 Water meters, 48614000 Data-acquisition system

#### **II.1.6. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

#### **II.2. Total value of the contract/lot**

##### **II.2.1. Total value of the contract/lot**

### **Section IV: Procedure**

---

#### **IV.1. Type of procedure**

##### **IV.1.1. Type of procedure**

Open

#### **IV.2. Award criteria**

#### **IV.2.1. Award criteria**

The most economically advantageous tender in terms of

1. Price. Weighting 40
2. The quality and characteristics of the equipment. Weighting 60

#### **IV.2.2. Information about electronic auction**

An electronic auction has been used: no

#### **IV.3. Administrative information**

##### **IV.3.1. File reference number attributed by the contracting authority**

2015/361

##### **IV.3.2. Previous publication concerning this procedure**

###### **Contract notice**

Notice number in the OJ S: [2016/S 125-224553](#) of 1.7.2016

#### **Section V: Award of contract**

---

Lot title: 2015/361 Framework agreement for the purchase of measurement technical equipment

##### **V.1. Date of conclusion of the contract**

23.8.2016

##### **V.2. Information about tenders**

Number of tenders received by electronic means: 1

##### **V.3. Name and address of the contractor**

Official name: SEBA Hydrometrie GmbH

Postal address: Gewerbestr. 61a

Town: Kaufbeuren

Postal code: 87600

Country: Germany

##### **V.4. Information on value of the contract/lot**

##### **V.5. Information about subcontracting**

The contract is likely to be subcontracted: no

#### **Section VI: Complementary information**

---

##### **VI.1. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no
