**II.1.4. Short description**

The Council of the Isles of Scilly is seeking to appoint a service provider to remove municipal and commercial solid waste (EWC 20 03 01) in the form of 'black bag' waste and shredded bulky waste that has been

mechanically treated (EWC 19 12 12), typical of that generated at a Household Waste Recycling Centre (HWRC). Due to the blending of these two waste streams, the waste is classified as 'shredded bulky waste that has been mechanically treated' (EWC 19 12 12). It is estimated that the Council will generate around 600 tonnes of black bag waste/shredded waste during the period of the contract which is to be removed from the Porthmellon Waste Management Site, St Mary's, Isles of Scilly and this requires transportation to a suitable waste disposal, treatment or recovery site off the islands.
