Main reason for change

:

Information updated

Description

:

Change in Title: Title amended to align with additional scope. Reason: To ensure it reaches all interested applicants. Change in LOT 2 Scope. Addition of two more Vesta Turbine Types /Wind Farms. Reason: ESB added two turbine types from original document. LOT 2 will now include an additional option LOT 2B for major components replacement services for Vesta Turbine types. Please refer to QSQ rev 2 for more detailed explanation. Reason: ESB concluded that original Lot 2 needed more viable options to PASS applicants onto the Qualifications System following evaluation of first procurement submissions. Change in Scoring Mechanism. Revision in scoring mechanism for Award Criteria. B9.4 is now pass/fail . However, requirement still matches original minimum requirement that issued in 2024. Reason: Simplifies evaluation for ESB, and no relevance in scoring at this stage of the procurement process.
