

United Kingdom-Liverpool: Software package and information systems

OJ S 169/2015 02/09/2015

Contract notice

Services

Directive 2004/18/EC

Section I: Contracting authority

I.1. Name and addresses

Official name: The Minister for the Cabinet Office acting through Crown Commercial Service, part of the Crown

Postal address: 9th Floor The Capital Old Hall Street

Town: Liverpool

Postal code: L3 9PP

Country: United Kingdom

E-mail: supplier@crownccommercial.gov.uk

Telephone: +44 3450103503

Internet address(es):

General address of the contracting authority: <http://www.gov.uk/ccs>

Address of the buyer profile: <https://gpsesourcing.cabinetoffice.gov.uk>

Additional information can be obtained from:

the abovementioned address

Specifications and additional documents (including documents for competitive dialogue and a dynamic purchasing system) can be obtained from:

the abovementioned address

Tenders or requests to participate must be submitted: the abovementioned address

I.2. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.3. Main activity

Other: public procurement

I.4. Contract award on behalf of other contracting authorities**Section II: Object of the contract**

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

G-Cloud 7.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 7: Computer and related services

Main site or place of performance: Primarily in the UK with some limited requirements overseas.

NUTS code UK United Kingdom

II.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

II.1.4. Information about framework agreement

Framework agreement with several operators

Number Envisaged maximum number of participants to the framework agreement: 999

Duration of the framework agreement

Duration in years: 1

Estimated total value of purchases for the entire duration of the framework agreement

Estimated value excluding VAT: 200 000 000 GBP

II.1.5. Short description of the contract or purchase(s)

Crown Commercial Service as the Contracting Authority is putting in place a Pan Government Collaborative Framework Agreement for use by UK public sector bodies identified at VI.3 (and any future successors to these organisations), which include Central Government Departments and their Arm's Length Bodies and Agencies, Non Departmental Public Bodies, NHS bodies and Local Authorities.

The above Public Sector Bodies have a need for a compliant Procurement Vehicle to access Cloud Computing Services.

This Framework will be a recurring Framework, the maximum duration of any Call-Off Contract that may be placed by an eligible Contracting Body is 24 months.

The G-Cloud Framework catalogue, which forms part of the Digital Marketplace, will require frequent procurement refreshes to bring on new suppliers and services. Refreshes are being considered at a varying frequency of 3-12 months depending on demand and/or availability of new services as the IT Cloud market develops. Suppliers are recommended to respond to this ITT to ensure services are displayed in the optimum manner on the Digital Marketplace. This G-Cloud 7 procurement will be responded to via the Digital Marketplace and details of how to register are included in the ITT. Suppliers must register on the Digital Marketplace as this is a new system being used by the Contracting Authority. Full instructions on how to register are included in the ITT and suppliers must follow the instructions to register.

Full instructions are contained in the ITT for this procurement and details the steps that suppliers need to take to offer services on the Digital Marketplace.

II.1.6. CPV code(s)

48000000 Software package and information systems, 72000000 IT services: consulting, software development, Internet and support, 72500000 Computer-related services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: yes

Tenders may be submitted for one or more lots

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

All cloud based services.

Estimated value excluding VAT: 200 000 000 GBP

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

II.3. Duration of the contract or time limit for completion

Duration in months: 12 (from the award of the contract)

Information about lots

Lot No: 1

Lot title: Infrastructure as a Service (IaaS)

1) Short description

As defined by the U.S. Department of Commerce, National Institute of Standards and Technology ('NIST')

The capability provided to the consumer is to provision processing, storage, networks, and other fundamental computing resources where the consumer is able to deploy and run arbitrary software, which can include operating systems and applications. The Consumer does not manage or control the underlying cloud infrastructure but has control over operating systems, storage, and deployed applications; and possibly limited control of select networking components (e.g., host firewalls).

Deployment Models:

As defined by the U.S. Department of Commerce, National Institute of Standards and Technology ('NIST')

Private cloud

The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises.

Community cloud

The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises.

Public cloud

The cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider.

Hybrid cloud

The cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds).

NB: This capability does not necessarily preclude the use of compatible programming languages, libraries, services, and tools from other sources.

2) CPV code(s)

72500000 Computer-related services

3) Quantity or scope

The definition of services within this Lot is:

The capability provided to the consumer is to provision processing, storage, networks, and other fundamental computing resources where the consumer is able to deploy and run arbitrary software, which can include operating systems and applications. The Consumer does not manage or control the underlying cloud infrastructure but has control over operating

systems, storage, and deployed applications; and possibly limited control of select networking components (e.g., host firewalls).

4) Indication about different time frame or duration

Duration in months: 12 (from the award of the contract)

5) Additional information about lots

Lot No: 2

Lot title: Platform as a Service (PaaS)

1) Short description

As defined by the U.S. Department of Commerce, National Institute of Standards and Technology ('NIST')

The definition of services within this Lot is:

The capability provided to the Consumer is to deploy onto the cloud infrastructure Consumer-created or acquired applications created using programming languages, libraries, services, and tools supported by the provider. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly configuration settings for the application-hosting environment.

Deployment Models:

As defined by the U.S. Department of Commerce, National Institute of Standards and Technology ('NIST')

Private cloud

The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises.

Community cloud

The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises.

Public cloud

The cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider.

Hybrid cloud

The cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds).

NB: This capability does not necessarily preclude the use of compatible programming languages, libraries, services, and tools from other sources.

2) CPV code(s)

72500000 Computer-related services

3) Quantity or scope

The definition of services within this Lot is:

The capability provided to the Consumer is to deploy onto the cloud infrastructure Consumer-created or acquired applications created using programming languages, libraries, services,

and tools supported by the provider. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly configuration settings for the application-hosting environment.

4) Indication about different time frame or duration

Duration in months: 12 (from the award of the contract)

5) Additional information about lots

Lot No: 3

Lot title: Software as a Service (SaaS)

1) Short description

As defined by the U.S. Department of Commerce, National Institute of Standards and Technology ('NIST')

The definition of services within this Lot is:

The capability provided to the consumer is to use the provider's applications running on a cloud infrastructure². The applications are accessible from various clients devices through either a thin client interface, such as a web browser (e.g., web-based email), or a program interface. The Consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user-specific application configuration settings.

Deployment Models:

As defined by the U.S. Department of Commerce, National Institute of Standards and Technology ('NIST')

Private cloud

The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises.

Community cloud

The cloud infrastructure is provisioned for exclusive use by a specific community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises.

Public cloud

The cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider.

Hybrid cloud

The cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds).

The definition of services within this Lot is:

The capability provided to the consumer is to use the provider's applications running on a

cloud infrastructure². The applications are accessible from various clients devices through either a thin client interface, such as a web browser (e.g., web-based email), or a program interface. The Consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user-specific application configuration settings.

4) Indication about different time frame or duration

Duration in months: 12 (from the award of the contract)

5) Additional information about lots

Lot No: 4

Lot title: Specialist Cloud Services

1) Short description

Lot 4 Specialist Cloud Services (SCS)

Lot 4 is designed to support the design and implementation of Cloud based services.

As such; the service(s) which are offered under Lot 4 should fall under the remit of the following headings:

Business Analysis

Provision to offer skills to identify and analyse organisational needs and how transferring some or all existing IT systems to cloud based systems could increase efficiencies and savings.

Legacy to Cloud Rationalization

These Services are designed to support organisations which have identified potential efficiencies in moving legacy IT solutions or infrastructure to the Cloud, but require support in the design and implementation of the solution themselves. Suppliers can offer those skills and identify which parts of a legacy system or infrastructure can be migrated to the cloud.

Design / Consultation

Provision to offer Cloud based system(s) designs inclusive of iterative design, development and ongoing maintenance of existing cloud services. These designs can include specification of what a solution could/should look like. That solution can then either be bought off the shelf via other Lots or designed by teams and development sourced from other Frameworks. This included developing of a 'Road Map' ahead of the transition detailing how the transition should work.

Transition Management

Once a Customer has a system design in place, these services are available to call on suppliers to manage the actual transfer, inclusive of the on-boarding and off-boarding of data and end user training. This includes the migration of existing services between data centres (whether on- or off-premise) as part of a transition to the cloud.

Service Management

Suppliers are able to offer continuous management for a customer's Cloud Solutions. This includes service integration, management of multiple Cloud solutions, the integration of Cloud and Non-Cloud services but not the management of exclusively Non-Cloud Services. It should be noted that when suppliers offer services, each individual service should be specific to one of the above streams. I.e., if a Supplier is able to offer services in each stream then they should offer 5 different services, not one single service that includes all of the above, in turn allowing customers to can buy a bit of each stage at once. Concessions should be made in the procurement process to allow a single supplier to win all streams to allow for continuity of delivery.

CESG Certified Cyber Security Consultancy

Cyber security consultants and consultancies vary considerably in their area and depth of

expertise.

The consultancy services offered will include one (or more) of the following categories:

- Policy & Standards
- Risk Assessment
- Risk Management
- Security Architecture
- IA Methodologies
- Incident Management
- Audit & Review

Guidance on selecting a CESG Certified Cyber Security Consultancy is available at <http://www.cesg.gov.uk/awarenesstraining/certified-professionals/Pages/index.aspx>

Excluded

For the avoidance of doubt, the following services are excluded from G-Cloud Additional Services:

- a) Co-Location Services
- b) Non-Cloud related services/ consultancy
- c) Bespoke digital project build services
- d) Hardware.

2) CPV code(s)

72500000 Computer-related services

3) Quantity or scope

Lot 4 is designed to support the design and implementation of Cloud based services.

As such; the service(s) which are offered under Lot 4 should fall under the remit of the following headings:

4) Indication about different time frame or duration

Duration in months: 12 (from the award of the contract)

5) Additional information about lots

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

Participants will not be required to provide a deposit. No guarantees will be required at Framework Agreement level; Contracting Bodies may insist on a guarantee at Call-Off stage but this will be stipulated in their Order Form.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

No special legal form is required but if a contract is awarded to a consortium, the Contracting Authority may require the consortium to form a legal entity before entering into the Framework Agreement.

III.1.4. Contract performance conditions

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Candidates will be assessed in accordance with Section 5 of the Regulations (implementing the Directive) on the basis of information provided in response to an Invitation to Tender ('ITT'). This procurement will be managed electronically via the Digital Marketplace. To participate in this procurement, participants must first be registered on the Digital Marketplace. If you are new to the Digital Marketplace, go to <https://www.digitalmarketplace.service.gov.uk/suppliers/create> to create an account.

~: 1. Create, or log into, an account on the Digital Marketplace homepage <https://www.digitalmarketplace.service.gov.uk> (this is only required once for all tenders on the platform) — Click on 'Log into existing supplier account' or 'Create new supplier account'.. To create a new supplier account, you will need to provide your company's head office DUNS number, Companies House number (if you have one), and contact details. 2. Register your interest in becoming a G-Cloud 7 supplier — Log in to the Digital Marketplace. Click the 'Register your interest in becoming a G-Cloud 7 supplier' link at the top of the page. You can now receive G-Cloud 7 email updates, read G-Cloud 7 guidance, ask clarification questions, make your supplier declaration and add services to your submission 3. Services that you've marked as 'complete' will be automatically submitted at 15:00 BST, 6.10.2015 if you have also made the supplier declaration. You must ask any clarification questions on the Digital Marketplace G-Cloud 7 updates page at www.digitalmarketplace.service.gov.uk/suppliers/frameworks/g-cloud-7/updates

III.2.2. Economic and financial ability

List and brief description of conditions: Potential Providers will be assessed on the basis of information provided in response to an ITT.

If you have not yet registered on the Digital Marketplace, this can be done online at <https://www.digitalmarketplace.service.gov.uk> Click on 'Create new supplier account'. You will need to provide your company's head office DUNS number, Companies House number (if you have one), and contact details.

The Contracting Authority is not conducting financial checks for appointment to the Framework Agreement. Financial checks may be performed by the Contracting Bodies at the time of Call-Off prior to direct award.

III.2.3. Technical and professional ability

List and brief description of conditions:

Potential Providers will be assessed in accordance with Section 5 of the Regulations implementing the Directive on the basis of information provided in response to an ITT.

The ITT can be accessed at: <https://www.digitalmarketplace.service.gov.uk> using the instructions detailed in III.2.1 The Contracting Authority may have regard to either or both of the following means in its assessment:

(a) an assessment of the services proposed by the Supplier, the Contracting Authority will publish the minimum set of service criteria that suppliers are required to make visible as part of their catalogue entries and service definitions as part of the ITT.

(b) Using a claims-based approach; the G-Cloud programme will confirm that the service makes clear and unambiguous statements about the published criteria. This will result in a high-level and initial G-Cloud Assurance.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.1.2. Information about the limits on the number of candidates to be invited

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Price is not the only award criterion and all criteria are stated only in the procurement documents

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

RM1557vii

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

6.10.2015 - 14:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

English.

IV.3.7. Minimum time frame during which the tenderer must maintain the tender

Duration in days: 120 (from the date stated for receipt of tender)

IV.3.8. Conditions for opening of tenders

Date: 6.10.2015 - 14:00

Place:

Electronically, via Digital Marketplace.

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: yes

Estimated timing for further notices to be published: No more often than every 3 months and no less often than every 12 months.

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.3. Additional information

Potential Providers should note that, in accordance with the UK Government's policies on transparency, Crown Commercial Service intends to publish the Invitation to Tender (ITT) document and the text of any Framework Agreement awarded, subject to possible redactions of commercially sensitive information at the discretion of Crown Commercial Service. The terms of the proposed Framework Agreement will also permit a public sector contracting authority, awarding a contract under this Framework Agreement, to publish the text of that contract, subject to possible similar redactions at the discretion of the contracting authority. Further information on transparency can be found at:

<https://www.gov.uk/government/publications/procurement-and-contracting-transparency-requirements-guidance>

Crown Commercial Service expressly reserves the right (i) not to award any contract as a result of the procurement process commenced by publication of this notice; and (ii) to make whatever changes it may see fit to the content and structure of the tendering competition; and in no circumstances will Crown Commercial Service be liable for any costs incurred by the Potential Providers. If Crown Commercial Service decides to enter into a Framework Agreement with the successful Supplier, this does not mean that there is any guarantee of subsequent contracts being awarded. Any expenditure, work or effort undertaken prior to contract award is accordingly a matter solely for the commercial judgement of Potential Providers. Any orders placed under this Framework Agreement will form a separate contract under the scope of this Framework between the Supplier and the specific requesting other contracting authority(s). Crown Commercial Service and other contracting bodies utilising the Framework Agreement reserve the right to use any electronic portal during the life of the agreement.

The duration referenced in Section II.1.4 is for the placing of orders. We reserve the right to extend the duration of this Framework Agreement for any period up to a maximum of six (6) months from the expiry of the Initial Term.

The value provided in Section II.1.4 is only an estimate. We cannot guarantee Suppliers any business through this Framework Agreement.

Crown Commercial Service wishes to establish a Framework Agreement for use by the following UK public sector bodies (and any future successors to these organisations):

Any corporation established, or a group of individuals appointed to act together, for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character, and

- (i) financed wholly or mainly by another Contracting Authority(s) listed above in this section VI.3 of this notice;
- (ii) subject to management supervision by another Contracting Authority(s) listed above in this section VI.3 of this notice; or
- (iii) more than half of the board of directors or members of which, or, in the case of a group of individuals, more than half of those individuals, are appointed by another Contracting Authority (s) listed above in this section VI.3 of this notice
- (iv) an association of or formed by one or more of the Contracting Authority(s) listed above in this section VI.3 of this notice

Any 'bodies governed by public law' which under the Public Contracts Regulations 2015 means bodies that have all of the following characteristics

- (a) they are established for the specific purpose of meeting needs in the general interest, not having an industrial or commercial character;
- (b) they have legal personality; and
- (c) they have any of the following characteristics:—
 - (i) they are financed, for the most part, by the State, regional or local authorities, or by other bodies governed by public law;
 - (ii) they are subject to management supervision by those authorities or bodies; or
 - (iii) they have an administrative, managerial or supervisory board, more than half of whose members are appointed by the State, regional or local authorities, or by other bodies governed by public law.

Due to a limitation of the OJEU Notice, the value 999 shown in Section II.1.4 should be considered as Unlimited.
