The procurement documents are available for unrestricted and full direct access, free of charge, at: <https://permalink.mercell.com/198998617.aspx>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/198998617.aspx>

I.4. Type of the contracting authority

Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

EFU-10664 Framework agreement for ground surveys and environmental surveys

Reference number: 2023/11762

II.1.2. Main CPV code

71351500 Ground investigation services

II.1.3. Type of contract

Services

II.1.4. Short description

The Agency for Development undertakes the builder function for municipal construction projects related to schools and nursery buildings, nursing homes, the fire and chimney sweeping service, arts buildings, sports buildings and administration buildings. This applies to both module buildings and built on site buildings.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45111250 Ground investigation work, 71313450 Environmental monitoring for construction, 71900000 Laboratory services

II.2.3. Place of performance

NUTS code: NO0A2 Vestland

NUTS code: NO0A Vestlandet

Main site or place of performance: Bergen Municipality

II.2.4. Description of the procurement

The contracting authority would like to use this contest to enter into a framework agreement for geotechnical and environmental ground surveys, laboratory examinations, as well as data reporting for Bergen Municipality's building and construction projects.

The geotechnical surveys are to be carried out and reported in accordance with NGF's guidelines and descriptive texts.

The environmental engineering surveys are to be carried out and reported in accordance with the Norwegian Environment Agency's guidelines (2022).

The prospective need will be clarified and described in each individual call-off.

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

The company must be legally registered. Documentation requirement: Companies that are registered in the Norwegian Register of Business Enterprises and the VAT Register do not need to attach documentation. The contracting authority checks organisation numbers in the company's Merccell profile. Attention is drawn to the fact that it is the organisation number that is on the company's profile for this competition in Merccell that will be checked. For companies that are not registered in the above-mentioned register, the tenderer must provide certificates or confirmation of registration (equivalent to a company registration certificate) in a trade register or company register as described in the legislation in the country where the tenderer is established. The certificate must not be issued more than 6 months prior to the tender deadline.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

The company must have satisfactory finances to carry out the assignment. Documentation requirement: The contracting authority will obtain information on the company's economic and financial capacity via Proff Forvalt, (companies that have submitted their accounts to the Brønnøysund Register Company are registered through Proff Forvalt). If the information on Proff Forvalt is not correct, or if supplementary information is required to highlight the company's economic and financial situation, this can be submitted. All the received and any obtained information will form the basis for an overall assessment of whether the qualification requirement is fulfilled. Foreign companies: The company's last two auditor approved Annual Financial Statements.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Tenderers must have experience from relevant assignments. Documentation requirement: The company's relevant assignments in the last three years, listed in the reference list template.

The chosen tenderer will be sent the template for a reference list in order to document fulfilment of the qualification requirement. In cases where the company does not have the necessary qualifications, but relies on other suppliers to be qualified, equivalent documentation must be submitted for them.

The company must fulfil the requirements for relevant education and practice for the function engineering design in development class 3 for geotechnics.

This involves fulfilment of the following requirements for education and practice in the company's professional management, cf. SAK10 § 11-3: Masters degree in engineering or architecture, graduate architect, civil engineer, or equivalent degree with 300 study points, or equivalent and 8 years work experience.

Documentation requirement: Certificate of acceptance or a copy of a certificate or qualification certificate issued by a public authority in Norway or another EEA country, which shows relevant education. Practice can be documented by reference projects.
