Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- Extreme urgency brought about by events unforeseeable for the contracting authority and in accordance with the strict conditions stated in the directive

Explanation:

Coronavirus disease (Covid-19) is a serious infectious respiratory disease, consequences pose a risk to life. The Covid-19 outbreak is a Public Health Emergency of International Concern as declared by the World Health Organisation (WHO) on 30 January 2020 and identified as a pandemic on 11 March 2020, Europe was the centre of the pandemic. The use of personal protective equipment is critical in safeguarding the health and lives of the care professionals treating patients with Covid-19. Delays in procuring poses a risk to life and the likelihood of a significantly increased death toll. In March 2020, the NHS experienced severe shortages of PPE; similar shortfalls in PPE stocks were identified globally. There was immense demand for PPE and a procurement following the usual timescales under the Public Contracts Regulations 2015, including accelerated options, was impossible. A delay in engaging with the market by running a usual procurement process ran the risk of failing to acquire the necessary stock of PPE equipment and presenting a significant risk to life. Warrington and Halton Hospitals NHS Foundation Trust is satisfied the tests permitting use of the negotiated procedure without prior publication (Regulation 32(2)(c)) were met:

As far as is strictly necessary:

PPE was identified as strictly necessary to meet anticipated demand on the NHS during the first wave of cases in the UK.

There are genuine reasons for extreme urgency:

WHH is responding to Covid-19 immediately because of public health risks presenting a genuine emergency.

The events that have led to the need for extreme urgency were unforeseeable:

As the Commission itself confirmed: 'The current Coronavirus crisis presents an extreme and unforeseeable urgency — precisely for such a situation our European rules enable public buyers to buy within a matter of days, even hours, if necessary.'

It was impossible to comply with the usual timescales in the PCR:

Due to the urgency of the situation there was no time to run an accelerated procurement under the open, restricted or competitive procedures with negotiation that would allow WHH to secure delivery of products, particularly in light of the corresponding delays to timelines associated with securing supply of the PPE equipment.

The situation is not attributable to the contracting authority:

The contracting authorities that comprise C&M HCP have not caused or contributed to the Coronavirus crisis, which justifies the need for extreme urgency.
