It is an opportunity for providers to work with The Council and CCG's to develop these services in Hampshire moving forward.

The Open framework has been set up to be used for personal care and support services by both the Council and the CCG's. The services under the Open Framework cover the Council's domiciliary care requirements (including the replacement of the Care at Home service), respite services (currently contracted as REACT), the care element of extra care and the CCGs Continuing Healthcare requirements. The enrolment questionnaire will require providers to submit details relating to their organisation which will be assessed by the Council and successful providers will be admitted onto the Open Framework.

The Open framework will always be open meaning that providers can apply at any time and providers who have previously been unsuccessful may re-apply once they have taken any corrective action..

Being accepted onto the Open Framework is no guarantee of work, but will allow providers to view and tender for Call-Off contracts for both The Council and the CCG's. Call-off contracts may be available at any point during the life of the Open Framework and will only be available for those providers on the Open Framework. Specific details for individual services will be published at call-off stage, this will include pricing, contract length, specification and call-off terms and conditions. Tenders submitted at call-off stage will be assessed against appropriate criteria relating to how the provider will deliver the specific opportunity.
