Organisation providing additional information about the procurement procedure: Transport Infrastructure Ireland (TII)

Organisation providing more information on the review procedures: The High Court of Ireland

Organisation signing the contract: Transport Infrastructure Ireland (TII)

6. Results

Value of all contracts awarded in this notice: 2 015 100,00 EUR

Direct award

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons Other justification: The Geospatial content for the Metrolink Project is growing at an exponential rate. Geospatial Technology and Data processes need to align with the project deliverables and timelines. For Technology, ESRI is the driving force and used in multiple directorates in TII across the organisation for the management of Geospatial content in Roads, Greenways, Luas and Metrolink projects. ESRI provides software to TII for Desktop, Web and Mobile applications usage. The technology is embedded across the organisation at both an enterprise and desktop level. Metrolink has

recognised the requirement for an ArcGIS Enterprise deployment with an Enterprise Geodatabase and can utilize the existing TII ELA to deploy. TII have an existing Esri Enterprise License Agreement (ELA), which is a multiyear contract. In considering the appropriate approach to procurement of an ArcGIS Enterprise deployment with an Enterprise Geodatabase TII considered the following: • Absence of competition for technical reasons (Article 50 (c)(ii) of the utilities Directive (2014/25/EU) - ESRI Ireland have the sole distribution rights for the ESRI ArcGIS platform on the island of Ireland; • Cost Savings: By extending the existing supplies through the original supplier, as allowed for under Article 50 (e) of the Utilities procurement Directive (2014/25/EU), and consolidating software purchases into a single agreement, organisations can reduce overall costs and optimise technology spending; • By using the TII ELA the proposed Metrolink ArcGIS Enterprise Operational Service has a cost saving of approximately €120,000 by not having to purchase an ArcGIS Enterprise licence.

6.1. Result lot identifier: LOT-0001

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: Esri Ireland

Tender:

Tender identifier: TII493 - ESRI Ireland

Identifier of lot or group of lots: LOT-0001

Value of the tender: 2 015 100,00 EUR

The tender is a variant: no

Subcontracting: No

Contract information:

Identifier of the contract: TII493

Organisation signing the contract: Transport Infrastructure Ireland (TII)

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders from medium tenderers

Number of tenders or requests to participate received: 1
