I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title

Framework agreement for consultancy engineering services for investment and maintenance projects.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 12: Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services

Main site or place of performance: Vefsn municipality.

NUTS code NO071 Nordland

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

The procurement involves the establishment of a framework agreement

II.1.4. Short description of the contract or purchase(s)

Vefsn municipality invites all tenderers to participate in a competition for the procurement:

'Framework agreement for consultancy services for investment and maintenance projects in

Vefsn municipality'.

Vefsn municipality, c/o Technical Operations and Buildings and Property, hereafter called the contracting authority, is holding an open tender contest with the aim of establishing parallel framework agreements for technical consultancy services within the area:

- Consultancy,
- Engineering design,
- Third party inspections,
- Preparation of tender documentation and possibly carrying out procurement processes,
- Project, engineering design and construction management, as well as engineering design administration.

The framework agreement shall apply for future maintenance projects and minor investment projects within:

- Project management (PL),
- Engineering design management (PGL),
- Construction management (BL),
- Building techniques/building and construction (RiB),
- Electrical Engineer (RiE),
- Heating, Ventilation and Sanitation Engineer (RiV),
- Municipal engineering (VVA),
- Valuation,
- Geotechniques/geology (RiG),
- Risk, safety and fire (RiBr),
- Architect (RiA).

The number of projects and the extent in the contract period will always depend on the current finance plan. The contract will be for 2 years with an option for a unilateral extension (prolongation) for the contracting authority for 1+1 year.

The contracting authority has several types of building and construction projects that comprise everything from minor alterations and extensions of existing buildings to major new buildings such as schools and residential and activity centres. The need for consultancy engineering design services within the different disciplines can vary considerably during the contract period. In addition to the adopted finance plan, the extent will depend on factors such as the choice of contract form, political approval of cost estimates/reviews, the municipality's areas of priorities and that all the necessary approvals are in place.
