

**NO-Trondheim: core drilling**  
**OJ S 191/2012 04/10/2012**  
**Contract award notice**  
**Services**

**Directive 2004/18/EC**

**Section I: Contracting authority**

---

**I.1. Name and addresses**

Official name: The Geological Survey of Norway (NGU)  
Postal address: Postboks 6315 Sluppen  
Town: Trondheim  
Postal code: 7491  
Country: Norway  
Contact person: Applied Geophysics Department  
For the attention of: Jan Steinar Rønning  
E-mail: [ngu@ngu.no](mailto:ngu@ngu.no)  
Telephone: +47 73904000  
Fax: +47 73921620  
**Internet address(es):**  
General address of the contracting authority: <http://www.ngu.no>

**I.2. Type of the contracting authority**

Body governed by public law

**I.3. Main activity**

Other: Research:geological surveys

**I.4. Contract award on behalf of other contracting authorities**

The contracting authority is purchasing on behalf of other contracting authorities: yes  
Official name: Statfraft  
National registration number: NO 980 396 002  
Postal address: Postboks 200, Lilleaker  
Town: Oslo  
Postal code: 0216  
Country: Norway

**Section II: Object of the contract**

---

**II.1. Description**

**II.1.1. Title**

Core drilling of one borehole at Moss/Rygge in Norway.

**II.1.2. Type of contract and place of performance or delivery**

Services  
Service category No 27: Other services  
Main site or place of performance: Moss/Rygge in Norway.  
NUTS code NO031 Østfold

**II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**

#### **II.1.4. Short description of the contract or purchase(s)**

The drilling site is located near Rygge Municipality House with coordinates are UTM 32V 596160 - 6586430. The drilling spot is located at a parking lot outside the Rygge Municipality House. Water supply is available from nearby buildings and a drainage for muddy water just near the drilling spot. The bedrock consists of Precambrian granitic gneisses partially covered by a thin layer of Quaternary sediments. NGU will undertake extensive investigations on resistivity and geological structures to locate eventual weak zones/ fractures that could cause problems during the drilling process, in which case, the drilling shall be moved to Mellos Stadium. (UTM 32v 594800 – 6587900). Here we can expect to have more mica in the gneisses.

#### **2. Technical Description of Work**

Borehole description:

- Vertical borehole down to 800 meters,
- Statkraft invites an optional bid for boring down to 1000 meter,
- Minimum diameter of drillhole should be 56 mm,
- Statkraft invites an optional bid for 76 mm diameter,
- Drill hole casing is required in all overburden sediments,
- The borehole shall be secured with a lockable cap.

If during the drilling the Contractor meets any technical or geological problem, NGU shall be contacted immediately to discuss and decide whether to caster/case the hole or stop drilling. The boreholes should be presented clean. Extra good flushing of the borehole will be required for 76 mm diameter that will be measured with Optical Televiewer.

A drilling report containing all drilling information about drilling speed, registration of fractures /weak zones, inflows of water from cracks, and other drilling information, is required at the end of the assignment.

Drill cores should be locked core boxes and sent to NGUs drill cores storage at Løkken in Meldal.

#### **II.1.5. CPV code(s)**

76340000 Core drilling

#### **II.1.6. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

#### **II.2. Total value of the contract/lot**

##### **II.2.1. Total value of the contract/lot**

Value: 1 170 000,00 NOK  
excluding VAT

### **Section IV: Procedure**

---

#### **IV.1. Type of procedure**

##### **IV.1.1. Type of procedure**

Open

#### **IV.2. Award criteria**

##### **IV.2.1. Award criteria**

The most economically advantageous tender in terms of  
1. Price. Weighting 50

2. Competence, reliability, financial and technical ability to perform the contract. Weighting 30
3. Referances. Weighting 20

#### **IV.2.2. Information about electronic auction**

An electronic auction has been used: no

#### **IV.3. Administrative information**

##### **IV.3.1. File reference number attributed by the contracting authority**

225820-2012 (2012-07-17)

##### **IV.3.2. Previous publication concerning this procedure**

no

### **Section V: Award of contract**

---

#### **V.1. Date of conclusion of the contract**

#### **V.2. Information about tenders**

#### **V.3. Name and address of the contractor**

Official name: GEO DRILLING AS

Postal address: Postboks 39

Town: Namsos

Postal code: 7801

Country: Norway

E-mail: [arild@geodrilling.com](mailto:arild@geodrilling.com)

Telephone: +47 74287360

Fax: +47 74275254

Internet address: [www.geodrilling.no](http://www.geodrilling.no)

#### **V.4. Information on value of the contract/lot**

Initial estimated total value of the contract/lot:

Value: 1 300 000,00 NOK

excluding VAT

#### **V.5. Information about subcontracting**

The contract is likely to be subcontracted: no

### **Section VI: Complementary information**

---

#### **VI.1. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:

no

#### **VI.2. Additional information**

#### **VI.3. Procedures for review**

##### **VI.3.1. Review body**

##### **VI.3.2. Review procedure**

##### **VI.3.3. Service from which information about the review procedure may be obtained**

**VI.4. Date of dispatch of this notice**

1.10.2012
