

315313-2026 - Competition

Norway – Fire engines – Fire engine

OJ S 88/2026 07/05/2026

Contract or concession notice – standard regime - Change notice

Supplies

1. Buyer

1.1. Buyer

Official name: Hå kommune

Email: mabo@ha.kommune.no

Legal type of the buyer: Body governed by public law, controlled by a local authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Fire engine

Description: Hå municipality, the fire-brigade, hereafter called the fire-brigade, shall procure a new fire engine. The Fire-brigade needs a new fire engine with a water tank and crew cabin, with seats for at least five people.

Procedure identifier: c2e761a0-2d79-454a-b2a6-6215fd353992

Internal identifier: 2026/1750

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The vehicle and delivery shall fulfil the requirements in the annexes to the competition description.

2.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 34144213 Fire engines

Additional classification (cpv): 34144212 Water-tender vehicles

2.1.2. Place of performance

Country subdivision (NUTS): Rogaland (NO0A1)

Country: Norway

2.1.4. General information

Additional information: The contracting authority has chosen to make an exception in the competition from using The Environment as the award criteria 30% based on the following: The contracting authority will not be required to procure a new fire engine that runs on fuel other than diesel. This is based on the municipality's geography, a lack of developed infrastructure for charging/filling alternative fuel. Beyond fuel (emissions of CO2 based on fuel), the contracting authority considers that there are currently not sufficient award criteria to be used that will have a significant effect on the environment. There are, therefore, absolute requirements in the competition for environmental measures: Euro 6 engine requirement (latest and cleanest engine technology) and the desire for a fire engine to use the Miljødiesel

system, requirements that together are assessed to give a better environmental effect than using the environment as the award criteria with weighting at least 30%. C.f. the exclusion provisions in the public procurement regulations § 7-5 fourth section.

Legal basis:

Directive 2014/24/EU

Anskaffelsesforskriften - Procurement Regulations

Anskaffelsesforskriften - Procurement Regulations

2.1.6. Grounds for exclusion

Sources of grounds for exclusion: European Single Procurement Document (ESPD)

5. Lot

5.1. Lot: LOT-0000

Country: Norway

5.1.3. Estimated duration

Duration: 24 Months

5.1.6. General information

Reserved participation:

Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): no

Additional information: The contracting authority has chosen to make an exception in the competition from using The Environment as the award criteria 30% based on the following:

The contracting authority will not be required to procure a new fire engine that runs on fuel other than diesel. This is based on the municipality's geography, a lack of developed infrastructure for charging/filling alternative fuel. Beyond fuel (emissions of CO2 based on fuel), the contracting authority considers that there are currently not sufficient award criteria to be used that will have a significant effect on the environment. There are, therefore, absolute requirements in the competition for environmental measures: Euro 6 engine requirement (latest and cleanest engine technology) and the desire for a fire engine to use the Miljødiesel system, requirements that together are assessed to give a better environmental effect than using the environment as the award criteria with weighting at least 30%. C.f. the exclusion provisions in the public procurement regulations § 7-5 fourth section.

5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: Tenderers are registered in a company register or a trade register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex. Minimum qualification requirements Norwegian companies: Company Registration Certificate Foreign companies: Verification that the tenderer is registered in a company register, professional register or a commerce register in the country where the tenderer is established.

Criterion: Financial ratio

Description of selection criterion: For financial key figures stated in the notice or in the procurement documents, the tenderer declares that the actual value(s) of the requested key figures are as follows: Minimum qualification requirements Tenderers must have sufficient economic and financial capacity to fulfil the contract. Description of requirements /documentation: Tenderers must have sufficient financial ability to carry out the assignment /contract. Good solidity is required. The minimum score acceptable is 'satisfactory' within two of the following criteria: liquidity, profitability and solvency, cf. Proff Forvalt ranking and/or minimum B on the analysis of the Probability of bankruptcy. By answering 'Yes' to this requirement, the tenderer confirms that the requirement is met. The contracting authority will undertake independent control of the information via Proff Forvalt.

Criterion: References on specified deliveries

Description of selection criterion: Only for public goods deliveries: In the reference period, the tenderer has carried out the following important deliveries of the requested type, or the following important services of the requested type. The contracting authority can require up to three years experience and allow experience from the previous three years to be taken into consideration. Minimum qualification requirements Description of up to 3 of the tenderer's most relevant contracts in the course of the last 3 years. The description must include a statement of the contract's value, date and recipient (name, telephone number and e-mail address). It is the tenderer's responsibility to document relevance through the description.

Criterion: Measures for ensuring quality

Description of selection criterion: The tenderer utilises the following technical facilities and quality assurance measures and the tenderer's survey and research facility is as follows: Minimum qualification requirements A good, well functioning quality assurance system is required. Documentation requirement: A description of the tenderer's quality assurance measures.
