

315853-2026 - Result

Norway – Resurfacing works – 11-2026-02 National and European roads North Rogaland and Vestland-South

OJ S 89/2026 08/05/2026

Contract or concession award notice – standard regime

Works

1. Buyer

1.1. Buyer

Official name: Statens vegvesen

Email: marianne.rogne@vegvesen.no

Legal type of the buyer: Body governed by public law, controlled by a central government authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: 11-2026-02 National and European roads North Rogaland and Vestland-South

Description: The contract work includes the milling of asphalt, the establishment of asphalt, as well as the subsequent establishment of FMO (Reinforced road marking) and NPL (Downed plan line) on Riks og Europaveier in North Rogaland and western Norway South. The contract area includes - E39 Arsvågen ferry quay - Sandvikvåg ferry quay - E134 Haugesund Airport - Røldal (Liamyrane) - E134 Husøyveien industrial area - National road 13, Carpenter ferry quay – Røldal junction E134 (Håra) The contract will be valid for 7 months from April to October. Quantities and list of stretches are in the attached documents. "Overview of asphalt contracts" and "Quantity summary and list of stretches". The contractor is responsible for familiarising himself with the sections in the contract before the start-up.

Procedure identifier: 37d7f09d-e726-4b0f-a869-76c1433c41f3

Previous notice: d359b610-4394-4f8e-ad03-7b8637e9bb4a-01

Internal identifier: 26/620

Type of procedure: Open

The procedure is accelerated: no

2.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45233251 Resurfacing works

Additional classification (cpv): 44113600 Bitumen and asphalt, 44113620 Asphalt, 45000000

Construction work, 45233000 Construction, foundation and surface works for highways, roads, 45233222 Paving and asphalting works

2.1.2. Place of performance

Country subdivision (NUTS): Rogaland (NO0A1)

Country: Norway

Additional information: Riks og Europaveier i Nord-Rogaland og vestland Sør.

2.1.3. Value

Estimated value excluding VAT: 24 000 000,00 NOK

2.1.4. General information

Call for competition is terminated

Legal basis:

Directive 2014/24/EU

5. Lot

5.1. Lot: LOT-0000

5.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45233251 Resurfacing works

Additional classification (cpv): 44113600 Bitumen and asphalt, 44113620 Asphalt, 45000000

Construction work, 45233000 Construction, foundation and surface works for highways, roads,

45233222 Paving and asphaltting works

5.1.2. Place of performance

Country subdivision (NUTS): Rogaland (NO0A1)

Country: Norway

Additional information: Riks og Europaveier i Nord-Rogaland og vestland Sør.

5.1.3. Estimated duration

Duration: 7 Months

5.1.5. Value

Estimated value excluding VAT: 24 000 000,00 NOK

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.10. Award criteria

Criterion:

Type: Cost

Name: Co2 - Weighting

Description: The contracting authority will choose tenders on the basis of the best relationship between price/cost and quality, based on the following criteria: The builder in this contract will take CO2eq emissions into consideration in addition to price. This will help reduce the environmental consequences of production and paving of asphalt. See chapter D1.3 for information on any contract points not covered by the CO2eq weighting. Lowest tender sum:

The tender sum will be calculated by a mark-up based on the amount of CO₂eq emissions. The tenderer with the lowest combined CO₂eq emission will not receive any mark-up in the tender sum. The difference in emissions between your tender and the tender with the lowest emissions is calculated for the other tenderers. This difference is priced at 7.5 KR/kg CO₂eq. The estimate in the tender sum will thus be the difference given in kg CO₂eq multiplied by 7.5 NOK/kg CO₂eq. Example point x: 10,000 tons asphalt Supplier A delivers an EPD that shows a discharge of 50 kg CO₂eq/tonne of asphalt; i.e. emissions in total 500,000 kg CO₂eq. Tenderer A has the lowest emissions and will not receive any mark-up in the competition sum. Supplier B delivers an EPD showing a discharge of 60 kg CO₂eq/tonne asphalt; i.e. emissions in total 600,000 kg CO₂eq. The difference compared to the lowest emissions is (600,000-500,000) kg/CO₂eq and the estimate for tenderer B will be 100,000 kg/CO₂eq * 7.50 NOK/kg CO₂eq = 750,000 NOK Documentation requirement: EPD shall be delivered in accordance with EN 15804 +A2: 2019 and approved by one or several members of the type Established ECO EPD Programme Operator» in eco-platform (i.a. EPD-Norway, Environdec and IBU) for each mass type at the points described in D1.3. This shall include the modules A1-A5 and C1-C3. It will be sufficient to deliver an EPD that includes modules A1-A3 and C1-C3 for each type of mass. In addition a set-up/spreadsheet must be delivered that shows the emissions in the modules A4 and A5 for each point. Contractors must document the prerequisites and measures that are the basis for calculating their EPDs. (e.g. heating medium, use of LTA, reuse, biogenic binder etc.) The additional information form shall be completed and enclosed with the tender. The requested information in the annex "Additional Information FOR EPD Weighting of CO₂" can be stated in a separate annex. All requested information shall be provided. The proposal's CO₂ contribution shall be production specific; i.e. a separate EPD shall be available from each production location. If there are no separate EPDs, default values can be used for awarding contracts. When default values are used, real and documented values shall be included in the CO₂ accounts when the contract is completed. When calculating the bonus/malus, the default values stated in the tender shall be used. Project specific EPDs that refer to approved reference EPDs shall be available at the tender deadline and enclosed with the tender. Requirement to submit EPDs with the tender as stated above is for the points where emission ceilings are set If EPDs are submitted or budgets that state the value that exceeds the stated roof for CO₂eq, it is not assessed as a condition and the tenderer must deal with the ceiling stated in the contract and the provisions on malus. Description of the method to be used if weighting cannot be expressed by criteria: Co₂ Weighting Award Criteria

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

Electronic auction: no

5.1.16. Further information, mediation and review

Review organisation: Oslo tingrett

Information about review deadlines: The waiting period deadlines are in the PPR. § 25-2.

Organisation signing the contract: Statens vegvesen

6. Results

Value of all contracts awarded in this notice: 34 442 270,00 NOK

6.1. Result lot identifier: LOT-0000

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: NCC Industry

Tender:

Tender identifier: 11-2026-02 Riks og Europaveier Nord-Rogaland og Vestland-Sør - NCC Industry

Identifier of lot or group of lots: LOT-0000

Value of the tender: 34 442 270,00 NOK

Subcontracting: Not yet known

Contract information:

Identifier of the contract: 11-2026-02 Riks og Europaveier Nord-Rogaland og Vestland-Sør - NCC Industry

Date on which the winner was chosen: 07/04/2026

Date of the conclusion of the contract: 06/05/2026

Information about European Union funds:

Organisation signing the contract: Statens vegvesen

6.1.4. Statistical information

Summary of the review requests the buyer received:

Number of complainants: 0

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 2

8. Organisations

8.1. ORG-0001

Official name: Statens vegvesen
