Title: Roskilde Cathedral World Heritage Centre – Design-and-build contract for exhibitions and interpretation

Description: The contract is not divided into lots because the assignment requires an integrated concept, design, technical integration, production and installation across interdependent locations and interfaces, including listed buildings and an active parish church. Division into lots would create disproportionate interface and coordination risks and could jeopardise the coherent visitor experience, the timetable and the fixed financial framework. The design-and-build contractor shall deliver an integrated exhibition and interpretation project for the Roskilde Cathedral World Heritage Centre. The scope includes, but is not limited to: an exhibition on The Lives and Deaths of the Monarchs in the main building; an exhibition on The Monument in the west wing; interpretation elements in Roskilde Cathedral; a themed children's area in the east gatehouse; interpretation elements in the palace garden; an interpretation portal in the gatehouse portal; signage and wayfinding across all exhibition and interpretation areas, including the cathedral. The contract also includes project management, design, engineering, technical integration, prototypes and mock-up, production, delivery, installation, commissioning, staff training, operating documentation and handover.
