Duration in months: 48 (from the award of the contract)

Information about lots

Lot No: 1

Lot title: Technical advice to retailers and suppliers of home & workplace products

1) Short description

This will require a high degree of expertise and ability to provide independent support to WRAP and to organisations identified by WRAP on one or more of the topics in the following non-exclusive list:

Advice on reducing impacts across the product life-cycle, including design, logistics, production and packaging, across the portfolio of home & workplace products – particularly for embedded carbon, water and waste impacts;

Advice on embedding resource efficiency in corporate processes, including procurement, design, product specification, product and service innovation and impact measurement; Financial and commercial evaluation of changes in business practice (product, packaging, outsourcing, product and service innovation, more efficient business model etc.);

Practical support (including workshop and working group facilitation) for project implementation, monitoring and evaluation and for change management;

Identifying good practice sector-wide in managing resource use, including through design specification, procurement, product and service innovation, logistics and performance measurement;

Developing a compelling commercial case for action on resource efficiency; drawing on substantial and complex technical evidence to present a concise and effective case; and.

Developing guidance, tools, case studies and other resources to share good practice.

2) CPV code(s)

90713000 Environmental issues consultancy services

3) Quantity or scope

4) Indication about different time frame or duration

5) Additional information about lots

Lot No: 2

Lot title: Technical advice to retailers, suppliers, recyclers and collectors of clothing and other textile products

1) Short description

This will require a high degree of expertise and working knowledge of the industry and the ability to provide independent support to WRAP and to organisations identified by WRAP on one or more of the topics in the following non-exclusive list:

Advice on reducing impacts across the product life-cycle of clothing and textile products (household and commercial) – particularly for embedded carbon, water and waste impacts; Advice on assessing and measuring the impact of reduction actions such as fibre/fabric selection, lower impact laundry practices, design – particularly for embedded carbon, water and waste;

Advice on embedding resource efficiency in corporate policies and processes for textile products, including procurement, design, product specification, fibre processing, manufacturing, supply and impact measurement/reporting;

Financial and commercial evaluation of changes in business practice (product, packaging, processing, manufacturing, outsourcing, business model etc);

Practical support (including 1:1 business support, workshop and working group facilitation) for project implementation, monitoring and evaluation and for change management;
Identifying good practice sector-wide in managing resource use, including through design specification, procurement, fibre processing, manufacturing, supply, logistics and performance measurement;
Developing guidance, tools, case studies and other resources to share good practice; and.
Advice on the use of recovered post-industrial and post-consumer textiles for re-manufacturing.

2) CPV code(s)

90713000 Environmental issues consultancy services

3) Quantity or scope

4) Indication about different time frame or duration

5) Additional information about lots

Lot No: 3

Lot title: Technical advice to retailers and suppliers of electrical & electronic products

1) Short description

This will require a high degree of expertise and ability to provide independent support to WRAP and to organisations identified by WRAP on one or more of the topics in the following non-exclusive list:

Advice on reducing impacts across the product life-cycle of electrical & electronic products – particularly for embedded carbon, water and waste impacts;

4) Indication about different time frame or duration

5) Additional information about lots

Lot No: 5

Lot title: Resource-efficient business models

1) Short description

This will require a high degree of expertise and ability to provide independent support to WRAP and to organisations identified by WRAP on one or more of the topics in the following non-exclusive list:

Financial and commercial evaluation of changes in business practice for both business to business and business to consumer scenarios;

Advice on practical changes to corporate processes, including innovation, design, procurement, service delivery, customer management, and product management and support;
Practical support (including innovation processes, workshop and working group facilitation) for business model implementation, monitoring and evaluation and for change management; and.
Developing guidance, tools, case studies and other resources to share good practice.

2) CPV code(s)

90713000 Environmental issues consultancy services

3) Quantity or scope

4) Indication about different time frame or duration

5) Additional information about lots

Lot No: 6

Lot title: Technical advice to hospitality and food service companies and their supply chains

1) Short description

This will require a high degree of expertise and working knowledge of the hospitality and food service industry and the ability to provide independent support to WRAP and to organisations identified by WRAP on one or more of the topics in the following non-exclusive list:

Food and drink management within a commercial kitchen and understanding of kitchen processes. For example, management of food to minimise waste within a kitchen;

Training and behaviour change on waste prevention and waste management to enable

development of train the trainer material for staff in hospitality and foodservice companies;
Hospitality and Foodservice procurement, including clients and outlets;
Data analysis and interpretation to enable financial and environmental impact to be assessed and prioritised and areas of potential improvement to be identified for a hospitality and foodservice business. This could be used for example to develop implementation plans for signatories to the Hospitality and Food Service Agreement;
Packaging and food waste management. With an understanding of services available and relevant legislation in different UK nations;
Strategic business case development. For example, to assist a contract caterer in providing a business case for their client to support them on resource efficiency measures;
Practical support (including workshop and working group facilitation) for business model implementation, monitoring and evaluation and for change management; and.
Developing guidance, tools, case studies and other resources to share good practice.

2) CPV code(s)

90713000 Environmental issues consultancy services
