I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Other activity: Electricity

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Civil Work for Wind farm Nørre Økse Sø

II.1.2. Main CPV code

45233120 Road construction works

II.1.3. Type of contract

Works

II.1.4. Short description

Construction of infrastructure for wind turbines at Nørre Økse Sø.

The site is an area of reasonably flat, open farmland.

New roads along the existing farm land boundaries must be constructed, so the individual wind turbine locations can be accessed by construction equipment and the turbine components.

The road layout is designed based on geotechnical survey and according to the requirement of the turbine supplier. For the erection and maintenance requirements at each wind turbine location a hardstand area in region of 1500 m² will be required. For the new roads and hardstands there must be relocated existing field drainage and installed new drainage.

The current layout includes 7 ditch crossings, which will require piping that allows water to flow beneath the road.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

45251160 Wind-power installation works, 45233226 Access road construction work, 45111000 Demolition, site preparation and clearance work, 45111200 Site preparation and clearance work, 45112000 Excavating and earthmoving work

II.2.3. Place of performance

NUTS code: DK050 Nordjylland

II.2.4. Description of the procurement

According to enclosed preliminary contract time construction on site is expected to start first quarter 2020 and end fourth quarter 2020.

The work is offered in a total main contract.

The following work shall be carried out:

- excavation of mold,
- excavation for new roads and hardstands,
- construction of drainage for roads and hardstands,
- construction of roads and hardstands as gravel roads, these must be carried out with geo-reinforcement mesh,
- construction of asphalt on transition to public road,
- maintain of the roads in the installation period of the turbines,
- reestablish of selected areas back to farmland.

The assignment contains the following rounded main quantities:

- topsoil/subsoil to excavate and dispose 18 300 m³,
- Topsoil/subsoil to excavate to depository 32 750 m³,
- sand 25 000 m³,
- gravel/crushed concrete 43 000 m³,
- drainage 11 350 m,
- piping of ditches 500 m,
- asphalt 230 m²,
- geo-reinforcement mesh 164 000 m².

II.2.5. Award criteria

Criteria below

Price

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/01/2020 End: 30/06/2022

This contract is subject to renewal: no

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5
Objective criteria for choosing the limited number of candidates:

Envisaged number of candidates: 5.

There will be selected 5 applicants who will be invited to submit a tender, with the following objective criteria for choosing the limited number of candidates.

Criteria 1) the applicants must meet the minimum requirements:

1) The applicant will be able to answer 'Yes' in the ESPD, Part V, and comply with the grounds for exclusion.

If more than 5 applicants meet the requirements for selection, the employer will select 5 applicants based on an overall evaluation on the following criteria's:

Criteria 2) the best:

2) The applicant that's meet the wished HSE level to the greatest extent in the opinion of the applicant, will be among the selectable applicants. Where the document WP.00080-004-1, HSE questionnaire, contains 'shall', this is to be perceived as the desired HSE level and should be considered as the minimum level at construction start.

Criteria 3) the best and most relevant:

3A) References going 7 years back in relation to the offered contract; and

3B) CV's on manager, safety coordinator and foreman level. CV's shall state references respectively qualification with similar or comparable tasks. By similar or comparable tasks, meant road construction and drainage work; and

3C) Best and most sufficient capacity regarding employees, tool, machinery and/or technical equipment available to the contractor for carrying out the contract in time.

Criteria 4) the best economic/financial standing/capacity regarding:

4A) Turnover figures and its professional liability insurance, however the employer will not take notice of/evaluate annual turnover that is higher than twice the estimated contract value; and

4B) Its professional liability insurance.

In the evaluation of the 3 mentioned Criteria's 2), 3) and 4), the employer will give more weight to Criteria 1) and then 2) and lowest to Criteria 3).

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The rotor pre-assembly area and the monopile guide frame area will be optional, since the need for these areas has not yet been finally established.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

If the order is assigned to a group of economic operators (eg a consortium), the members of the association shall assume joint and several liability, direct and unconditional liability and responsibility and appoint a joint agent.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Regarding the compulsory and voluntary grounds for exclusion in the Procurement Act, § 135, 136 and 137, 1, number 1) and 2) the applicant must fulfil the ESPD Part II, III.A, Part III.B and Part III.C.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

In Part IV, B of the ESPD the applicant must provide information about the following:

- documentation for turnover in the areas of road construction, the applicant must provide financial statements that comprises the last 3 years. It will not be necessary to submit final documentation, if information is publicly available,
- if the applicant does not have financial statements that go back 3 years, then the applicant must provide as many years as possible together with a statement of the date of establishment of the applicant,
- as final documentation for liability insurance the applicant must provide copy of the insurance certificate.

If the applicant relies on the economical/financial capacity of other legal entities the applicant must prove in the application that the applicant has at his disposal the resources necessary for instance by providing documentation that the applicant can rely on the capacity of the other legal entity in this respect. A template for this documentation is found in the tender documents (002-1, Tender terms, Appendix 002-1.1). This documentation is considered final documentation.

Minimum level(s) of standards possibly required:

There must be no significant risk that the applicant will not be able to complete the task satisfactorily due to financial circumstances.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

In Part IV, C and D of the ESPD the applicant must provide information about the following:

- the applicant's (list of) references of 5 contracts similar or comparable to the contract that is out for tender, i.e. concerning road construction and drainage work, that have been completed by the applicant within the last 7 years before submission of the application. The information about the references must contain scope of contract, date of commencement and conclusion, contracting entity and contract value. In case the applicant has performed only a smaller part of the referred contract, this must be specified,
- if significant subcontractors are intended to be used for the solution, this is stated. In that case, their purpose is documented with references for similar tasks performed within the last 5 years,
- the applicant must list CV's on 5 persons (at the most, each of max. 3 pages in A4 size) regarding staff who are supposed to carry out the function as project manager, safety coordinator and/or foreman of the task,

- the applicant must list the relevant capacity regarding tool, machinery and/or technical equipment available to the contractor for carrying out the contract in time,
- the applicant must inform of the average number of staffs working in the field of road construction and drainage work of the applicant in the last 3 years.

Reference and CV's listed in the ESPD and optionally supplemented by reference an CV' sheets/appendices are considered as final documentation.

By major subcontractors means:

- subcontractors whose services according to the offer amount to more than 15 % of the total contract price.

Minimum level(s) of standards possibly required:

It is a minimum requirement that the applicant achieve at the minimum point in the evaluation regarding HSE system stated in the requirements set out in document 004-1, HSE pre-qualification questionnaire.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

Listed in the tender documents.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Restricted procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 09/08/2019 Local time: 15:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

English

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud

Town: Viborg

Postal code: 8800
Country: Denmark
E-mail: kflu@erst.dk
Telephone: +45 35291095
Internet address: www.kflu.dk

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

Complaints regarding a candidate not being pre-qualified must be filled with The Complaints Board for Public Procurement, (Klagenævnet for Udbud) (2016-06-02 No 593 available at www.retsinformation.dk) within 20 calendar days starting the day after the Contracting Authority has sent notification to the candidates involved, cf. § 7(1) of the Danish Act on The Complaints Board for Public Procurement, provided that the notification includes a short account of the relevant reasons for the decision.

Other complaints must be filled with The Complaints Board for Public Procurement within:
1) 45 calendar days after the Contracting Authority has published a contract award notice in the Official Journal of the European Union (with effect from the day following the publication date). The complainant must inform the Contracting Authority of the complaint in writing at the latest simultaneously with the lodge of the complaint to The Complaints Board for Public Procurement stating whether the complaint has been lodged in the standstill period, cf. § 6(4) of the Act on The Complaints Board for Public Procurement. If the complaint has not been lodged in the standstill period, the complainant must also state whether it is requested that the appeal is granted delaying effect, cf. § 12(1) of the said Act. The email of The Complaints Board for Public Procurement is stated in Section VI.4.1). The Complaints Board for Public Procurement's own guidance note concerning complaints is available at the internet address stated in Section VI.4.1).
