I.4. Type of the contracting authority

Regional or local agency/office

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

The Purchase of a Route Optimisation Tool

Reference number: 12/2020

II.1.2. Main CPV code

48100000 Industry specific software package

II.1.3. Type of contract

Supplies

II.1.4. Short description

The contracting authority shall procure a tool for optimising waste routes in Trondheim municipality. The tool will be able to give us a targeted optimisation and increase the efficiency for the collection of waste from businesses (Retura AS) and households (Trondheim Renholdsverk AS), respectively. The system must manage information on geographical limitations and other additional data associated with the collection points, and on the basis of this information estimate the most effective route based on various factors associated with e.g. distances, time, cost and environment.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

48000000 Software package and information systems, 48100000 Industry specific software package, 48213000 Operating system enhancement software package, 48326000 Mapping software package, 48330000 Scheduling and productivity software package, 48332000 Scheduling software package, 48422000 Software package suites, 48451000 Enterprise resource planning software package, 48517000 IT software package, 72261000 Software support services, 72263000 Software implementation services, 72230000 Custom software development services, 72268000 Software supply services

II.2.3. Place of performance

NUTS code: NO061 Sør-Trøndelag

II.2.4. Description of the procurement

There are approx. 90 000 households in Trondheim municipality, each with their own collection schemes. Of these, approx. 60 000 own small containers outside the house, while the rest are distributed at common collection points such as containers and waste suction systems. The route optimisation tool should be used on the devices connected to small containers and larger ones. This amounts to approx. 130 000 units located in the city, distributed in approx. 34 000 collection locations. Based on the type of device and vehicles that can collect the unit, we want a scheme that generates new efficient routes for an expanding city.

II.2.5. Award criteria

Criteria below

Quality criterion - Name: User friendliness and functionality / Weighting: 40 %

Quality criterion - Name: Delivery time and implementation plan / Weighting: 20 %

Price - Weighting: 40 %

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 24

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

An exclusive option for the awarding authority for 3 + 3 years extension of the contract.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Qualification requirements

Tenderers shall be registered in a company register, professional register or a trade register in the country where the tenderer is established.

Documentation requirement:

— Norwegian companies: Company Registration Certificate;

— Foreign companies: Documentation that the company is registered in a company register, professional register or a trade register in the state where the tenderer is established.

The certificate must not be older than 12 months from the tender deadline.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Qualification requirements

Tenderers must have the financial capacity to carry out the assignment/comply with the contractual obligations. Tenderers are required to be credit worthy, have satisfactory liquidity and solidity, and a minimum score of A or equivalent.

Documentation requirement:

A credit rating based on the most recent accounting figures. The credit rating must not be older than 3 months. The rating shall be carried out by a credit rating company with licence to carry out this service.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Requirement

Tenderers must have experience from comparable assignments.

Documentation requirement

• A description of the tenderer's most relevant assignments in the course of the last 3 years.

The list must include a statement of the deliveries' value, dates and recipients (name, telephone number and e-mail address). It is the tenderer's responsibility to document relevance through the description. Tenderers can document experience by referring to the competence of the personnel that can be used for this project, including skills or experience that has been acquired while the personnel was in the service of another employer.

Qualification requirements

Tenderers are required to have a quality assurance system.

Documentation:

- Documentation of the quality assurance system.

An account of the tenderer's existing routines and documentation that the requirement for a quality assurance system/management system applicable for the assignment is covered. If this is described in the tenderer's quality assurance system in accordance with ISO 9001 or equivalent, documentation of this can be enclosed.

Qualification requirements

Tenderers shall have a binding cooperation relationship with any sub-providers

Documentation:

- Signed commitment statement (Annex 8).

If a tenderer must rely on another company's competence or capacity to fulfil a qualification requirement, a separate ESPD form must be enclosed for this sub-supplier. A signed statement of commitment from the relevant subcontractor must be submitted.

- Completed ESPD — section II D;
- A declaration of joint liability.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

See annex 9 contract.
