Section II: Object of the contract

II.1. Description**II.1.1.**

Title attributed to the contract by the contracting authority

The seafront 2 in Molde — consultants/engineering design group.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 12: Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services

Main site or place of performance: Molde, Norway.

NUTS code NO053 Møre og Romsdal

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement**II.1.5. Short description of the contract or purchase(s)**

The Molde River's outlet shall be subject to river flow diversion by relocating the current river pier. The area from the new pier and further westward towards Torget (the Square) shall also be established. Molde municipality would thus like to engage a landscape architect, a landscape architect and consultant engineers within the following disciplines; consultant engineer geotechnics (RIG), consultant engineer civil (RIB), consultant engineer HVAC and water and sewage (RIV) and consultant engineer electro (RIE).

II.1.6. CPV code(s)

71000000 Architectural, construction, engineering and inspection services, 71400000 Urban planning and landscape architectural services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement**II.2.1. Total quantity or scope**

The assignment concerns the 2nd construction stage of the Seafront in Molde, with river flow diversion of the Molde River and the relocation of a pier, as well as various works in the area down to the seafront towards Torget (the Square).

Consultants shall prepare a preliminary project, as well as undertaking all documentation for the total preliminary project calculations. Furthermore the preliminary project shall form the basis for the tender competition, contracting and execution, either in the described detailed designed contract or as a function described turnkey contract for parts of the initiative (phase 1).

II.2.2. Information about options

Options: yes

Description of options: The options involve independent inspections, detailed engineering design, as well as preparation of work plans. The contract also include an option with possible engineering design for the quay area outside Hamnegata 48, and the extension of a boulder wall on both sides of the Molde River, up towards the lower bridge in the Strandgata street.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract
