The estimated budget for the Project as a whole is

60-70 million GBP and it is intended that the Project will take three years. The intention is that the new campus will be operational from September 2020.

In summary, the new campus will: require a total gross internal area of approximately 17 000 m²; provide an efficient, flexible and modern learning environment for students; have high visual impact and contribute to the regeneration of Luton; be an educational hub and also be accessed by the community and public.

The purpose of this procurement process is to appoint a quantity surveyor team for the Project. More information relating to the education facilities to be provided by the new campus and the scope of services is set out in the Specification (Schedule 2 to the Information Memorandum document) which is available on the portal.
