Through the CBI Export Development and Promotion Programmes, CBI works in selected potential export value chains, with the objective to create a sustainable and inclusive export increase. The programmes usually cover a period of several years in which we improve the export competitiveness of small and medium exporters in developing countries through tailored interventions at company and institutional level. The programmes are designed for specific market sectors and affect the full value chain of selected sectors. To optimally improve export promotion CBI integrates different services together under one programme (country and sector specific). The integrated programmes are focussed on the key actors, influencers and supporters of the export value chain, which are exporters, importers, Business Support Organisations (BSOs) and governmental authorities. The sector experts Garments will be asked to contribute to the CBI's Garments programme by supporting participating companies in their preparation for the European and regional market and in their European and regional market entry activities, through coaching, consultancy and training, sharing knowledge about export marketing and the European market, and facilitating relevant contacts with buyers on the European market.
