### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.1.**

### **Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Tenderers must be registered in a company register or trade register in the member state where the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member countries can be required to fulfil other requirements in the mentioned annex.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

The credit worthiness that will form the basis for qualification for participation in the Dynamic Purchasing System for cars is risk class 5 (credit worthy) equivalent to score A — credit worthy. Tenderers with a lower score are rejected.

Minimum level(s) of standards possibly required:

The credit rating must not be older than 6 months and it must be based on the last known accounting figures. A credit rating must be carried out by a publicly approved credit rating agency which confirms that the tenderer has the necessary economic and financial ability /qualification based on a total assessment. The tenderers themselves must collect the documentation from the credit rating agency(ies). The documentation must be attached the application for participation in DPS. Companies without adequate credit rating, newly started companies with a credit score of AN, individual foreign companies or companies without reporting obligation to the Brønnøysund Register Centre will not always be able to document that the requirement is met. In such instances, they will be able to compensate with a satisfactory credit rating which provides an equivalent security for implementation ability. Such alternative documentation must be included as part of the application.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Tenderers must have a dealer's workshop with a parts department.

A good and well-functioning quality management system is required for the requested services

The concept of a quality management system is that i.a., the tenderer has a awareness of quality objectives, planning, securing, handling of deviations and quality improvement.

Minimum level(s) of standards possibly required:

A description of the tenderer's organisation that shows how they are connected to a dealer's workshop, whether they belong to the company or not.

Account of the tenderer's quality management system, including quality targets, planning, security, handling deviations and quality improvement. If a tenderer is certified in accordance with ISO 9001:2015 or equivalent, such a certificate is valid as documentation of fulfilment of the qualification requirement.
