II.1.1. Title

Lot D: Wood Chips Reception and Storage for DIN Forsyning Varme A/S

II.1.2. Main CPV code

45251142 Wood-fired power station construction work

II.1.3. Type of contract

Works

II.1.4. Short description

Negotiated procedure of Lot D wood chips reception, screening, transport, storage and extraction.

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2.

Additional CPV code(s)

03413000 Fuel wood, 09111400 Wood fuels, 34312600 Rubber conveyor belts, 42417200 Conveyors, 44613110 Silos, 44614100 Storage bins, 45213221 Warehouse stores construction work, 45251250 District-heating plant construction work

II.2.3. Place of performance

NUTS code: DK032 Sydjylland

Main site or place of performance: Esbjerg.

II.2.4. Description of the procurement

DIN Forsyning Varme A/S in Esbjerg, Denmark is in the process of replacing the heat delivered from the existing coal fired power station (ESV3) which is going out of operation 2023.

DIN Forsyning Varme A/S has decided to establish new base load production capacity to replace the heat previously purchased from Ørsted A/S with new heat production facilities to be located in harbor area close to the existing peak load plant City Centralen and existing heat accumulator tank and distribution pumps.

There will be established 60 MW wood chips fired heating boiler, 50 MW heat pump and expected 30 MW of electrical boiler.

The contract is based on FIDIC Yellow Book 2017 Edition.

DIN Forsyning Varme A/S intends to enter into a contract with one contractor for the delivery of Wood chips reception and storage.

II.2.5. Award criteria

Quality criterion - Name: Technical solution / Weighting: 40

Quality criterion - Name: Project solution / Weighting: 20

Price - Weighting: 40

II.2.11. Information about options

Options: yes

Description of options:

Option 1: Service contract

As an option, the tenderer shall quote for a 5-year service and maintenance agreement of the permanent works. The service contract will start at taking-over.

The tenderer shall propose the draft conditions of such service contract based on the agreement's compliance with the following requirements.

The service contract shall be based on and include the following:

- delivery of all goods and materials;
- delivery of qualified and experienced manpower for engineering, planning, inspection, supervision, maintenance, repair and replacement works;
- inspection and maintenance of The Works during the summer to be coordinated with DIN Forsyning Varme A/S;
- execution of inspections, maintenance, repair and/or replacement works;
- that the tenderer is available for on-call technical support and trouble-shooting on a 24/7 basis;
- that the tenderer from time of notification by DIN Forsyning Varme A/S will arrive at the plant within 24 hours, and that the Tenderer without any delay will execute required maintenance, repair and/or replacement works;
- certificates, reports and other documentation covering the executed maintenance works, repair and/or replacement works.

Option 2: Subtraction price wood chip sampling/analysis equipment

The contractor shall as an option offer a solution based on a subtraction price if DIN Forsyning Varne A/S instead of a real-time fuel analysing station selects an automatic biomass sampling system with carousel type sample container system.

The analysing equipment shall be positioned upstream of equipment positioned within the screening building. — This in order for DIN Forsyning Varne A/S to analyse the fuel before e. g. metals are discarded from the fuel in the downstream positioned metal separation system.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
