II.2.4. Description of the procurement

We want to use this tender for a framework agreement to look for cooperation partners that we can have a long term and good cooperation with over time.

The framework agreement will be designed as a parallel framework agreement with the tenderer with the best tender being asked first. If the best ranked tenderer cannot deliver within the framework agreement's deadlines, the enquiry will then go to the tenderer ranked as no 2. A contract will therefore be signed with two tenderers based on this distribution.

We believe that this type of contract will also contribute to creating security and continuity for our cooperation partners.

The scope of the services in the contract period cannot be estimated. In the last two years, the scope of the services and associated material has been approx. NOK 6.8 million - NOK 7.6 NOK excluding VAT a year. In addition other municipal entities will be able to use the framework agreement. This is not a binding scope, but information so that tenderers can assess whether their organisation can handle the assignments.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value
