

Italy-Ispra: Framework service contract for the collection of meteorological and hydrological observed data in support to the early warning systems of the Copernicus emergency management service (EMS) — 2 lots

OJ S 182/2015 19/09/2015

Contract award notice

Services

Directive 2004/18/EC

Section I: Contracting authority

I.1. Name and addresses

Official name: European Commission, Joint Research Centre (JRC), Institute for Environment and Sustainability

Postal address: via Enrico Fermi 2749, TP 581

Town: Ispra VA

Postal code: 21027

Country: Italy

E-mail: jrc-ies-procurement@ec.europa.eu

Internet address(es):

General address of the contracting authority: <http://web.jrc.ec.europa.eu/callsfortender>

I.2. Type of the contracting authority

European institution/agency or international organisation

I.3. Main activity

General public services

Other: Research and operational development.

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title

Framework service contract for the collection of meteorological and hydrological observed data in support to the early warning systems of the Copernicus emergency management service (EMS) — 2 lots.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 7: Computer and related services

Main site or place of performance: Contractor's site.

NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

The procurement involves the establishment of a framework agreement

II.1.4. Short description of the contract or purchase(s)

The Copernicus EU space programme led by DG Internal Market, Industry, Entrepreneurship

and SMEs has entered its full operational phase following the adoption of the Copernicus Regulation in April 2014 (Copernicus programme 2014–2020 repealing Regulation (EU) No 911/2010 of the European Parliament and of the Council 2009/0070(COD)). The emergency management services (EMSs) mapping and early warning system (EWS), which have been initial operational activities since April 2012 and October 2012 respectively, will continue as a full operational service as defined in Article 5 of the Copernicus Regulation. Copernicus EMS is operating in direct support to the European civil protection mechanism executed by the European Response Coordination Centre (ERCC) and the EU Member States.

The implementation of the Copernicus EMS has 4 different modules:

1. The EMS rapid mapping:

on-demand and fast provision of geospatial information in support to emergency management activities immediately following an emergency event.

2. The EMS risk and recovery mapping:

on-demand provision of geospatial information in support to emergency management activities during the phases of the emergency management cycle not related to the immediate response, i.e. not requiring rush mode delivery. In particular, information provision relates to the prevention, preparedness and reconstruction phases.

3. The EMS validation:

verification of a sample of service outputs produced by Copernicus emergency management service rapid mapping or Copernicus emergency management service risk and recovery mapping services, and includes external quality control, validation of thematic information content and comparison to alternative information sources related to the emergency context.

4. The EMS early warning:

Its first building block is the European flood awareness system (EFAS) delivering added value information to the national hydrological services and provides a unique overview on the current and forecast flood situation. The second building block will be from 2015 onwards via the European forest fire information system (EFFIS) which delivers harmonised information on forest fires in Europe.

This framework contract refers to the EMS early warning. The objective of the framework contract is to provide the (EMS) with the necessary meteorological and hydrological observed in situ and remote sensing data to operate its early warning systems.

The contract has 2 lots:

lot 1: meteorological data collection in support to the early warning systems of the Copernicus emergency management service;

lot 2: hydrological data collection in support to the early warning systems of the Copernicus emergency management service.

II.1.5. CPV code(s)

72310000 Data-processing services, 38127000 Weather stations, 34712200 Satellites, 72314000 Data collection and collation services, 72317000 Data storage services, 72316000 Data analysis services, 71351612 Hydrometeorology services, 71351900 Geology, oceanography and hydrology services, 71351610 Meteorology services

II.1.6. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.2. Total value of the contract/lot

II.2.1. Total value of the contract/lot

Value: 5 022 673,88 EUR
excluding VAT

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of

1. Quality. Weighting 60
2. Price. Weighting 40

IV.2.2. Information about electronic auction

An electronic auction has been used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

JRC/IPR/2014/H.7/0042/OC.

IV.3.2. Previous publication concerning this procedure

Contract notice

Notice number in the OJ S: [2014/S 247-435310](#) of 23.12.2014

Section V: Award of contract

Contract No: 391760

Lot No: 1

- Lot title: Meteorological data collection in support to the early warning systems of the Copernicus emergency management service

V.1. Date of conclusion of the contract

8.7.2015

V.2. Information about tenders

Number of tenders received: 2

V.3. Name and address of the contractor

Official name: Kisters AG

Postal address: Pascalstraße 8–10

Town: Aachen

Postal code: 52076

Country: Germany

V.4. Information on value of the contract/lot

Initial estimated total value of the contract/lot:

Value: 2 795 000 EUR

excluding VAT

Total value of the procurement:

Value: 3 044 895,88 EUR

excluding VAT

V.5. Information about subcontracting

The contract is likely to be subcontracted: yes

Value or proportion likely to be subcontracted to third parties:

Proportion: 20 %

Contract No: 391758

Lot No: 2

- Lot title: Hydrological data collection in support to the early warning systems of the Copernicus emergency management service

V.1. Date of conclusion of the contract

8.7.2015

V.2. Information about tenders

Number of tenders received: 2

V.3. Name and address of the contractor

Official name: Agencia de Medio Ambiente y Agua

Postal address: CL Johan G. Gutenberg 1

Town: Seville (Seville)

Postal code: 41092

Country: Spain

V.4. Information on value of the contract/lot

Initial estimated total value of the contract/lot:

Value: 2 355 000 EUR

excluding VAT

Total value of the procurement:

Value: 1 977 778 EUR

excluding VAT

V.5. Information about subcontracting

The contract is likely to be subcontracted: no

Section VI: Complementary information

VI.1. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: yes

Identification of the project: Regulation (EU) No 377/2014 of the European Parliament and of the Council of 3.4.2014, establishing the Copernicus Programme and repealing Regulation (EU) No 911/2010.

VI.2. Additional information

This notice is published in accordance with Commission Delegated Regulation No 1268/2012 of 29.10.2012 on the rules of application of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council on the financial rules applicable to the general budget of the Union. Article 171.1 of this Regulation related to the standstill period before signature of the contract states that 'The contracting authority shall not sign the contract or framework contract, covered by Directive 2004/18/EC of the European Parliament and of the Council, with the successful tenderer until 14 calendar days have elapsed, running after the simultaneous dispatch of the notifications to successful and unsuccessful tenderers or 10 calendar days where a fax or electronic means are used for the dispatch'. Article 123.4 of this Regulation

states that 'In the case of a contract or a framework contract with a value equal to or above the thresholds laid down in Article 170(1), the award notice shall be sent to the Publications Office of the European Union, no later than 48 calendar days from the date on which the contract is signed'.

VI.3. Procedures for review

VI.3.1. Review body

Official name: General Court
Postal address: rue du Fort Niedergrünewald
Town: Luxembourg
Postal code: 2925
Country: Luxembourg
E-mail: generalcourt.registry@curia.europa.eu
Telephone: +352 4303-1
Fax: +352 4303-2100
Internet address: <http://curia.europa.eu/>

VI.3.2. Review procedure

Precise information on deadline(s) for review procedures: Within 2 months of the notification to the plaintiff, or, in absence thereof, of the day on which it came to the knowledge of the plaintiff. A complaint to the European Ombudsman does not have as an effect either to suspend this period or to open a new period for lodging appeals.

VI.3.3. Service from which information about the review procedure may be obtained

Official name: General Court
Postal address: rue du Fort Niedergrünewald
Town: Luxembourg
Postal code: 2925
Country: Luxembourg
E-mail: generalcourt.registry@curia.europa.eu
Telephone: +352 4303-1
Fax: +352 4303-2100
Internet address: <http://curia.europa.eu/>

VI.4. Date of dispatch of this notice

9.9.2015
