2.1. Procedure

Title: Intention notice for the procurement of services connected to the tool dRofus
Description: Sykehusbygg HF uses the dRofus tool delivered by dRofus AS in its ongoing construction projects. Sykehusbygg Health Trust is preparing a new procurement of tools and services for room function and equipment planning. In anticipation of the new procurement, Sykehusbygg HF intends to enter into an ongoing assistance contract for adapting dRofus software. The contract will be temporary and it will include services such as development, configuration, project adaptation, project support and support in the period from 01.05.2026 until 31.12.2027. Background: Sykehusbygg is owned by the country's four regional health authorities (RHF), which in turn are owned by the state by the Ministry of Health and Care Services. Sykehusbygg is an internal supplier for the regional health authorities and the national health company. Sykehusbygg shall, as an internal supplier, facilitate and contribute to standardisation, transfer of experience, good resource utilisation and resource access in engineering design and construction of hospitals. Construction assignments or contributions to construction assignments shall only be deliverable to the 4 RHFs and their underlying HF as well as parties included in a co-ownership with them. The tool dRofus is used by Sykehusbygg to maintain control of the requirement position, room and function planning, equipment procurements and management of standard systems. To support this, there is a need to ensure access to the capacity of development, configuration, project adaptation, project support/assistance and service/support associated software in individual projects and across projects.
