2.1. Procedure

Title: Market survey - Framework agreement for school camp services.

Description: Sandnes municipality plans to implement a competition for parallel framework agreements for camp school services and plans to announce the competition during August 2026. The estimated total value is approx. NOK 16,000,000 excluding VAT. Sandnes municipality has not previously had framework agreements in this area, and would like, in this connection, good dialogue with the market so that the competition can be carried out in the best possible way. The municipality has adopted a change in the practice for carrying out school stays at camps, where the implementation is moved to the first stage of secondary school, instead of the last step of the primary school. It is planned that the first annual school stay for secondary school is the 2015 class, and that the first execution will take place in autumn 2028 (8th grade). Furthermore, we will describe our initial thoughts and starting points for how we plan to enter and align the competition. We would like feedback from the market on all aspects of this, and in particular on how we set parallel framework agreements and what requirements we plan to set. It is central that the market gives feedback in this phase so that we can implement the best possible competition and end up with the best possible result for the schools and pupils.
