1. Buyer

1.1. Buyer

Official name: Bergen kommune - Etat for bygg og eiendom

Email: torjan.haaland@bergen.kommune.no

Legal type of the buyer: Body governed by public law, controlled by a local authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: R0011EBE - Framework agreement ground and concrete

Description: The Agency for Buildings and Property (EBE) manages, operates, maintains and develops the municipality's properties. The property mass consists of more than 1,000 buildings of approx. 1.2 million m² and 5,000 undeveloped properties, as well as 6 km of different quays and quay fronts with adjoining areas. Nearly 60 percent of the buildings are schools, nurseries and nursing homes. The remaining buildings are, among other things, office buildings, port buildings, fire stations, car parks, quays and sports halls. To cover the Agency's need for ongoing maintenance and operation of buildings, quays and areas, Bergen municipality, c/o the Building and Property Department, intends to enter into a framework agreement with two tenderers for the provision of ground and concrete services.

Procedure identifier: 79188c14-21c3-4b64-9fe8-cb22a60e7745

Internal identifier: 2026/146491

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The framework agreement will include the delivery of a number of different types of work, for example: Excavation Maintenance and replacement of ditches and manholes (W&S works) Quay works (repairs of granite fronts, amendments, quay rails, cover etc.) Drainage Asphalted places and minor road works Asphalted Concrete cover and masonry (including form work and reinforcement) Stair road edges Securing walls and hull drilling and concrete sawing. Fencing Underwater work (casting) Rock protection Rivning /clearance Engineering design services The list of services included in the framework agreement is not exhaustive. Other services that naturally come under the disciplines included in this framework agreement will be provided if there is a need in the contract period. The framework agreement can have varying types of call-offs, from small to large call-offs on land and in port. The port works will mostly include sub-contract 1. The amount of call-offs can vary throughout the year, for example there can be a high number of call-offs before summer and a small number of call-offs after the New Year. The framework agreement is divided into the following sub-contracts: Sub-contract 1 - Bergenhus, Årstad, Åsane and Arna (75%) Lot 2 - Fana, Ytrebygda, Laksevåg and Fyllingsdalen (25%) Lot 1 includes approx. 75% of the estimated volume, but the estimated volume can vary between the sub-contracts due to unforeseen needs that may occur during the contract period. Tenderers will submit tenders for

both lots, but only one contract shall be awarded per tenderer, so that two different tenderers will be awarded. Tenderers who submit a tender with the lowest comparison price and are ranked number one will be awarded sub-contract 1. Tenderer ranked second will then be awarded sub-contract 2. The contracting authority has entered into a framework agreement for site gardening services and fences and gates. Work within ground and concrete in connection with call-offs on the site gardening agreement/fences and gates is not included in this framework agreement. The contracting authority also has other ongoing contracts for services that in some assignments will limit or overlap assignments under this agreement. The contracting authority will, in such cases, use the contracts in the most appropriate way. Emphasis is put on the fact that the contracting authority's extent can vary based on actual need and/or the budget can change during the framework agreement period. The Contracting Authority reserves the right to hold separate tender/tender competitions within ground and concrete, where appropriate and without justification.

2.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45000000 Construction work

Additional classification (cpv): 14213200 Tarmac, 44114000 Concrete, 45111240 Ground-drainage work, 45111250 Ground investigation work, 45112100 Trench-digging work, 45262300 Concrete work

2.1.2. Place of performance

Town: Bergen

Country subdivision (NUTS): Vestland (NO0A2)

Country: Norway

2.1.3. Value

Estimated value excluding VAT: 280 000 000,00 NOK

2.1.4. General information

Legal basis:

Directive 2014/24/EU

Anskaffelsesforskriften - The procurement will be carried out in accordance with the provision in the Procurement Act and the procurement regulations, parts I and part III. The contract will be awarded in accordance with the open tender contest procedure, which means that all interested tenderers can submit a tender.

2.1.6. Grounds for exclusion

Sources of grounds for exclusion: European Single Procurement Document (ESPD), Notice Corruption: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a enforceable verdict has been convicted of corruption by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Corruption as defined in Article 3 of the Convention on Combating Corruption, Involving European Communities or European Union Member States (EUT C 195 of 25.6.1997, s. 1), and in Article 2, point 1, in the Council's framework decision 2003/568/RIA of 22 July 2003 on combating corruption in the private sector (EUT L 192 of 31.7.2003, p. 54). This rejection reason also includes corruption as defined in national law for the contracting authority or supplier.

Fraud: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted of fraud has been convicted of fraud

by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Fraud included in Article 1 of the Convention on protection of the Financial Interests of the European Communities (EFT C 316 of 27.11.1995, p. 48).

Money laundering or terrorist financing: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of money laundering or financing terrorism by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Money laundering or financing terrorism As defined in Article 1 of the European Parliament and Council Directive 2005/60/EF of 26 October 2005 on preventive measures against the use of the financial system for money laundering and financing terrorism (EUT L 309 of 25.11.2005, p. 15).

Participation in a criminal organisation: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted verdict of participation in a criminal organisation by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Participation in a criminal organisation as defined in Article 2 of the Council's framework decision 2008/841/RIA of 24 October 2008 on control of organised crime (EUT L 300 of 11.11.2008, p. 42)

Terrorist offences or offences linked to terrorist activities: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of acts of terrorism or criminal acts connected to terrorist activities by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Acts of terrorism or criminal acts relating to terrorist activity as defined in Article 1 and 3 of the Council's framework decision 2002/475/RIA of 13 June 2002 on combating terrorism (EFT L 164, of 22.6.2002, p. 3). This rejection reason also includes incitement to, participation or attempts to commit such actions as included in Article 4 in the mentioned framework decision.

Child labour and including other forms of trafficking in human beings: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of child labour and other forms of human trafficking by a verdict handed down no more than five years ago, or a rejection period determined directly in the judgement that still applies? Child labour and other forms of human trafficking as defined in Article 2 of the European Parliament and council directive 2011/36/EU of 5. 1 April 2011 on the prevention and control of human trafficking and the protection of its victims and for compensation of the Council's framework decision 2002/629/RIA (EUT L 101 of 15.4.2011, p. 1).

Breaching of obligations in the fields of environmental law: Is the tenderer aware of breaches of environmental provisions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Breaching of obligations in the fields of labour law: Is the tenderer aware of breaches of provisions on working conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Breaching of obligations in the fields of social law: Is the tenderer aware of breaches of provisions on social conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Agreements with other economic operators aimed at distorting competition: Has the tenderer entered into agreement(s) with other tenderers with the intention of turning the competition?
Grave professional misconduct: Has the tenderer committed serious errors in professional practice? If relevant, see the definitions in national law, the relevant notice or procurement documents.

Misrepresentation, withheld information, unable to provide required documents or obtained confidential information of this procedure: Have the tenderer:a) given grossly incorrect information when notifying the information required to verify that there is no basis for rejection, or of the qualification requirements being met,b) failed to provide such information,c) subject to immediately submitting the supporting documents requested by the Contracting Authority, or d) improperly affecting the Contracting Authority's decision process to acquire confidential information that could give this an unlawful advantage in connection with competition, or negligently has given misleading information that can have a significant influence on decisions on rejection, selection or award?

Conflict of interest due to its participation in the procurement procedure: Are tenderers aware of a conflict of interest as stated in national law, the relevant notice or procurement documents?

Direct or indirect involvement in the preparation of this procurement procedure: Has the tenderer or an entity associated with the supplier advised the contracting authority or in another way been involved in the planning of the competition?

Early termination, damages, or other comparable sanctions: Has the tenderer committed significant breaches of contract in connection with the fulfilment of a previous public contract, a previous contract with a public contracting authority or a previous concession contract, where the breach has led to the cancellation of the contract, compensation or other similar sanctions?

Breaching of obligations set under purely national exclusion grounds: The contracting authority shall state that in Norway there are national rejection reasons. These shall be described in the procurement documents. Tenderers must respond to whether they are in one or more of the situations described in the national rejection reasons. Will the purely national rejection reasons, as stated in the relevant notice or in the procurement documents, apply?

Breaching obligation relating to payment of social security contributions: Have tenderers failed to fulfil all their social security obligations in the country where they are established and in their member state, if this is a different country than what he is established in?

Breaching obligation relating to payment of taxes: Has the tenderer not fulfilled his tax and duty obligations in the country in which he is established, and in the contracting authority's member state, if this is a different country than what he is established in?

Business activities are suspended: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Bankruptcy: Is the tenderer in a bankruptcy situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Arrangement with creditors: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Insolvency: Is the tenderer in an insolvency situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Assets being administered by liquidator: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Analogous situation like bankruptcy, insolvency or arrangement with creditors under national law: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

5. Lot

5.1. Lot: LOT-0000

Title: R0011EBE - Framework agreement ground and concrete

Description: The Agency for Buildings and Property (EBE) manages, operates, maintains and develops the municipality's properties. The property mass consists of more than 1,000 buildings of approx. 1.2 million m² and 5,000 undeveloped properties, as well as 6 km of different quays and quay fronts with adjoining areas. Nearly 60 percent of the buildings are schools, nurseries and nursing homes. The remaining buildings are, among other things, office buildings, port buildings, fire stations, car parks, quays and sports halls. To cover the Agency's need for ongoing maintenance and operation of buildings, quays and areas, Bergen municipality, c/o the Building and Property Department, intends to enter into a framework agreement with two tenderers for the provision of ground and concrete services.

Internal identifier: 2026/146491

5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a trade register

Description of selection criterion: Tenderers are registered in a company register or a trade register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex. Minimum qualification requirements Tenderers shall be a legally registered company. Documentation: Documentation must not be enclosed for tenderers registered in the Norwegian Register of Units. The contracting authority will check the registration by using the organisation number stated in the tenderer's Merccell profile. Tenderers who are not registered in the above register must present a certificate or confirmation (equivalent company registration certificate) for registration in a trade or business register as prescribed by the law of the country where the tenderer is established. Such a certificate shall not be issued more than six months before the tender deadline.

Criterion: Other economic or financial requirements

Description of selection criterion: Regarding any other economic and financial requirements that have been stated in the notice or in the procurement documents, the tenderer declares that: Minimum qualification requirements Tenderers must have sufficient economic and financial capacity to be able to fulfil the contract. The credit rating must show that the tenderer is credit worthy without security. The tenderer is required to have a minimum rating C (Low risk) in the credit company Creditsafe. Documentation: The contracting authority will check a credit rating carried out by the credit company Creditsafe, so the tenderer does not need to enclose their own credit rating. Newly established tenderers can submit a bank statement as proof of credit worthiness. If the tenderer is not registered in Creditsafe's registers, the company's last two auditor approved annual accounts shall be submitted upon request. If information in the above sources is not correct or supplementary information is needed to highlight the company's economic and financial situation, this can be provided.

Criterion: References on specified works

Description of selection criterion: Only for public building and construction works: During the reference period the tenderer has carried out the following work of the requested type. The contracting authority can require up to five years experience and allow experience from the previous five years to be taken into consideration. Minimum qualification requirements Tenderers shall refer to good experience that is relevant for the procurement as described in the procurement documents. The experience shall be of relevant complexity and extent. The reference projects shall include information stated in the ESPD form in Merccell. + The contracting authority shall provide the "recipients" in the field, as well as a gender neutral preferred with the name, telephone number, email address and role in the reference project. + In the field "Beskrivelse" there shall be a brief description of the project and state what makes the experience relevant for this procurement. Documentation requirement: Relevant experience shall be documented by stating 2 to 5 reference projects from the last 5 years. The

reference projects will be added directly to Mercell as a response to this requirement. The contracting authority reserves the right to also contact the recipients of the reference projects. If more than five reference projects are given, only the first five will be assessed. In addition to the stated references, the contracting authority reserves the right to emphasise their own experiences with the tenderer.

Criterion: Technicians or technical bodies for quality control

Description of selection criterion: Tenderers can use the following technical personnel or technical units, particularly those who are responsible for quality control: For technical personnel or technical units that do not directly belong to the tenderer's business, but if the capacity the tenderer will use, cf. part II, section C, separate ESPD forms shall be supplemented. Minimum qualification requirements Description of the requirement /documentation: Tenderers are required to have sufficient capacity to carry out the assignment in accordance with the needs of the Contracting Authority. Sub-contract 1 requires that the tenderer has a minimum of 20 workers (minimum of whom eight are skilled workers) outside apprentices who can carry out assignments under this contract. For sub-contract 2, tenderers are required to have at least 8 workers (minimum 3 skilled workers) outside apprentices who can carry out assignments under this agreement. Documentation requirement: Tenderers shall enclose an overview of workers who are relevant for the execution of this delivery. The overview can preferably be in table form. The overview shall include the person's professional qualifications, experience and how the person is intended to be used in the relevant delivery. All resources stated shall have sufficient capacity in the contract period to be able to be used as described.

Criterion: Certificates by independent bodies about quality assurance standards

Description of selection criterion: Can tenderers submit certificates issued by independent bodies that document that the tenderer fulfils the stated quality assurance standards, including universal design requirements? Minimum qualification requirements The contracting authority requires that all tenderers have implemented a quality management system that is satisfactory to ensure the quality of execution in this contract. Documentation requirement: Description of the company's implemented quality management system. A certificate shall be submitted for the company's quality management system issued by independent bodies that confirm that the company fulfils certain quality management standards, for example ISO 9001. If the company does not have such certificate, other documentation of the company's quality management system shall be provided. In such cases as a minimum the following shall be submitted: + the system's name and detailed table of contents + general description of the contents of the system, including an overview of control plans and check-lists that are relevant for this contract + organisation chart showing the responsibilities in the quality management system + description of routines for internal control and handling of deviations (work with corrective and preventive measures) + a description of how the system will be used to ensure the quality of this contract. All received or obtained documentation will form the basis for an overall assessment of whether the qualification requirement is fulfilled.

Criterion: Certificates by independent bodies about environmental management systems or standards

Description of selection criterion: Is the tenderer able to submit certificates issued by independent bodies as documentation that the tenderer fulfils the stated environmental management systems or standards? Minimum qualification requirements The contracting authority requires that all tenderers have implemented procedures and systems, certified by independent third parties, that ensure that the execution of this contract has a low impact on

the environment. Documentation requirement: Certificate issued by an independent body approved for certification. The certificate must confirm that the tenderer's environmental management system complies with requirements in a relevant standard. Documentation is required that the tenderer either has an Eco-lighthouse certificate, is EMAS certified, is certified in accordance with ISO 14001, or have a valid certificate from other relevant environmental management schemes or standards. If a tenderer does not have such a certificate, the tenderer must provide other documentation for environmental management measures that are equivalent to a relevant environmental management scheme or standard. Tenderers must also document that the measures are equivalent to those required in accordance with such an environmental management scheme or standard. Tenderers who are qualified on the basis of other documentation for environmental management measures than the third-party certification that is awarded the contract, will be obliged to carry out third-party certification of their environmental management system. This is further described in the contractual requirements that are included in the annex for changes to the standard contract.

5.1.10. Award criteria

Criterion:

Type: Quality

Name: Quality - Work tasks

Description: Introduction: Under this criteria, the contracting authority has listed three work tasks (hereafter called assignment) with different solution problems. Tenderers ought to describe punctually and chronologically from A to oh how they think about solving these assignments. The tenderer's solution description should be built on good insight that both describes the challenges that can meet and the knowledge that is intended to be used to solve each assignment. In addition tenderers ought to describe which resources and qualities including HSE are activated, as well as provide time perspectives with explanations for the execution of each assignment. Assignment 1 (40%): It is Friday, 12:00, and a structural change has been reported in the transition between the peleikai's quay cover and adjoining terrain, i.e. 1 metre from the quay cover. The area is asphalted and used for container management with 'reachstackers'. The axel pressure is up to 65 tons. A call-in will be made to the framework supplier with a need for emergency turn-outs as the vessel is lying and unloading and traffic is stopped. There are 2 surface water pipelines close to the area. The kot during the transition is -1 meter with a fall of 20 degrees, the transition is not sheet piled. The work must be carried out as fast as possible with permanent improvements. Tenderers ought to describe how they solve this task in accordance with the introduction above. Maximum 800 words for this assignment. Words over 800 will not be evaluated. Assignment 2 (30%): A call-off has been sent to the framework supplier to build a noise screen of 40 metres in length and 2 metres high. The noise reduction screen will cross 2 municipal water pipelines. The cable route including high voltage cable is located along the entire route at 3 metres distance. The initiative is only missing an initiation permit. The project is being engineered and executed in accordance with the Planning and Building Act, water and sewage norm for Bergen municipality, the regulations on electrical supply installations and SHA rules. Tenderers ought to describe how they solve this task in accordance with the introduction above. Maximum 600 words for this assignment. Words over 600 will not be evaluated. Assignment 3 (30%): Damage to the granite front quay with therefor sentences in the front/corner. A granite block in the corner of the Sikolte foundation quay has been reported to be on the way out. With the ROV inspection it shows that the stone is at depth 8 meters from the quay edge, and that the stone suction have opened on each side all the way down to the bottom, as in an A-shape. The quay has approx. 15 m depth from the quay cover to the bottom. Tenderers ought to describe how they solve this task in accordance with the introduction above. Maximum 600

words for this assignment. Words over 600 will not be evaluated. Documentation requirement: The tenderer's own description with a maximum of 2,000 words divided between all the assignments (see the maximum word per task in each task text). A front page is allowed, and neither is included in the evaluation nor a maximum word. Any links/hyperlinks and/or enquiries to other annexes will not be evaluated by the Contracting Authority. The tenderer's solution description ought to be concrete, as it will be binding for the tenderer during the entire contract period.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 60

Criterion:

Type: Price

Name: Price

Description: The price consists of the following price elements, which will be added together to a total evaluation sum in NOK excluding VAT: Prices for personnel, use of vehicles and site machines multiplied by an annual estimated amount. 24 hour price charging bank multiplied by an annual estimated amount. Unit prices for asphaltting multiplied by an annual estimated amount. Estimated sum for the total purchase of material multiplied by the offered mark-up percentage (1+ the offered mark-up percentage). Documentation requirement: Completed Annex 4A - Price Form can be uploaded together with the tender.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 40
