- 20) Safety, health and work environment coordinator (KU and KP)
- 21) Surveying services
- 22) Consulting engineer for sound and acoustics (RIA)
- 23) Traffic planner (technical and traffic assessments/planning)

The tenderer must also have access to rig/equipment to carry out ground surveys.

In the contract period the contracting authority expects to need consultancy services for projects of different sizes and complexity, including new buildings, extensions/additions, alterations, renovations, recreation areas, water and sewage, roads and pipelines, etc. In addition the contracting authority will require services for planning processes and reviews of varying sizes and complexity.

The contracting authority's need for consultancy services can be within:

- The planning phase
- The ordering phase (where a mandate is given)
- The review phase

- The engineering design phase (draft project, preliminary project, and detailed project)
- The competition phase
- The contracting phase (from tender to contract)
- The construction phase
- The hand over phase
- The evaluation phase
- The claims phase

The assignments can be minor assignments for a few hours, or assignments that last for a longer period. The contracting authority reserves the right to vary the commitment as needed and manage this in the orders for each assignment, hereafter called call-off.

The main users of the contract are Technical Operations, Buildings and Property, and the Planning Section.

All units/departments/sections at the contracting authority can use the contract.
