Ireland – Civil engineering consultancy services – Modification Notice to RFT ID 144083 Contract - River Camac Flood Alleviation Scheme.

OJ S 93/2026 15/05/2026

Contract or concession award notice – standard regime
Services

1. Buyer

1.1. Buyer

Official name: Dublin City Council

Email: gerry.oconnell@dublincity.ie

Legal type of the buyer: Local authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Modification Notice to RFT ID 144083 Contract - River Camac Flood Alleviation Scheme.

Description: This Contract Award Notice is acting as a Modification Notice under Article 72 of 2014/24/EU to RFT ID 144083 Contract - River Camac Flood Alleviation Scheme published on the previous eTenders system, prior to the introduction of new TED eForms.

Procedure identifier: 6a59f6c5-85ee-4383-8537-4c8a68e3c813

Type of procedure: Open

2.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 71311000 Civil engineering consultancy services

Additional classification (cpv): 71311300 Infrastructure works consultancy services, 71322000

Engineering design services for the construction of civil engineering works, 45246000 River regulation and flood control works, 45246400 Flood-prevention works

2.1.2. Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

2.1.3. Value

Estimated value excluding VAT: 583 967,00 EUR

2.1.4. General information

Additional information: A contract was awarded to AECOM Ireland Ltd on 07/10/2019 at a value of €193,196 for Stage 1 and Stage 2 AECOM Ireland Ltd was appointed Scheme Design Consultant to complete Stage 1 and Stage 2 of the River Camac Flood Alleviation Scheme (RCFAS), with an option to extend to Stage 5. AECOM was also appointed Project Supervisor Design Process (PSDP). AECOM was appointed following a Mini Competition (RFT-144083) managed on etenders with participants from Dublin City Council's Flood Consultant's Framework (RFT ID – 116671). The scheme has required several modifications to aid the progression of Stage 1 and Stage 2. The changes resulted in addition of work to the Consultant's Brief, and associated increases in contract costs and programme delivery

timeline. The modifications generally relate to refinement of the consultant's integrated catchment hydraulic model due the complexity of the River Camac Catchment, additional input surveys and survey supervision, website maintenance and consultation, hydrology refinement, project management and administration prolongation costs, and stakeholder engagement. There were 38 modifications made to the contract. Changes are made in accordance with Section 11 Client Changes of the Standard Conditions for Consultancy Services (Technical) (COE1). There were 38 modifications made to the contract. All individual modifications are less than 50% of the initial contract value. The modifications increased the contract value by €390,000 (EX VAT). The modifications to the contract are made in accordance with Article 72.1 (b). Contracts and framework agreements may be modified without a new procurement procedure in accordance with Directive 2014/24/EU. 1(b) for additional works, services or supplies by the original contractor that have become necessary and that were not included in the initial procurement where a change of contractor: (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, services or installations procured under the initial procurement; and (ii) would cause significant inconvenience or substantial duplication of costs for the contracting authority. However, any increase in price shall not exceed 50% of the value of the original contract. Where several successive modifications are made, that limitation shall apply to the value of each modification. Such consecutive modifications shall not be aimed at circumventing this Directive. The complex hydraulic computer modelling required for this catchment has driven the bulk of the modifications to date. The delivery of a reliable hydraulic model to accurately model flooding in the Catchment is a necessity to progress the River Camac Flood Alleviation Scheme. The development of a reliable hydraulic computer model for the catchment is not complete. It would be technically difficult to try to hand this work package over to another Supplier. This coupled with the possible need for another supplier to create their own hydraulic computer model would set the project schedule back considerably and duplicate the associated costs to the contracting authority. This would have significant economic impacts, and it would cause significant inconvenience to the contracting authority. Dublin City Council confirms that the value of each modification does not exceed 50% of the original contract value.

Legal basis:

Directive 2014/24/EU

5. Lot

5.1. Lot: LOT-0001

Title: Modification Notice to RFT ID 144083 Contract - River Camac Flood Alleviation Scheme.
Description: This Contract Award Notice is acting as a Modification Notice under Article 72 of 2014/24/EU to RFT ID 144083 Contract - River Camac Flood Alleviation Scheme published on the previous eTenders system, prior to the introduction of new TED eForms.
Internal identifier: 1

5.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 71311000 Civil engineering consultancy services

Additional classification (cpv): 71311000 Civil engineering consultancy services, 71322000 Engineering design services for the construction of civil engineering works, 45246000 River regulation and flood control works, 45246400 Flood-prevention works

5.1.2. Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

5.1.5. Value

Estimated value excluding VAT: 583 967,00 EUR

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.7. Strategic procurement

Aim of strategic procurement: No strategic procurement

5.1.10. Award criteria

Criterion:

Type: Cost

Description: Cost@30%

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 30

Criterion:

Type: Quality

Description: Quality @70%

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 70

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: The High Court of Ireland

Organisation providing more information on the review procedures: The High Court of Ireland

Organisation signing the contract: Dublin City Council

6. Results

Value of all contracts awarded in this notice: 583 967,00 EUR

6.1. Result lot identifier: LOT-0001

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: AECOM Ireland Ltd

Tender:

Tender identifier: AECOM Ireland Ltd

Identifier of lot or group of lots: LOT-0001

Value of the tender: 583 967,00 EUR

Subcontracting: No

Contract information:

Identifier of the contract: Modification Notice to RFT ID 144083 Contract - River Camac Flood Alleviation Scheme.

Date of the conclusion of the contract: 07/10/2019

Organisation signing the contract: Dublin City Council

6.1.4. Statistical information

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 2
