Specialist offshore environmental and decommissioning services.

Reference number: TRN1138/03/2016

II.1.2. Main CPV code

76000000 Services related to the oil and gas industry

II.1.3. Type of contract

Services

II.1.4. Short description

The Department of Energy and Climate Change (DECC) requires the provision of specialised environmental and decommissioning services to support its functions relating to the regulation of offshore oil and gas exploration, production and decommissioning activities, on the UK Continental Shelf (UKCS).

II.1.6.

Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 900 000,00 GBP

II.2. Description

II.2.3. Place of performance

NUTS code: UK United Kingdom

Main site or place of performance: United Kingdom.

II.2.4. Description of the procurement

Description of procurement: The key function will be to provide specialist environmental and decommissioning advice to DECC so that it can effectively fulfil its regulatory remit of ensuring:

- Proper assessment of the environmental impact of oil and gas development activity.
- Optimum economic and environmental consideration of decommissioning proposals.

The programme aims to deliver:

- An improved understanding of the environmental impacts of oil and gas activity and the mitigation measures to be adopted.
- Dissemination of specialist knowledge and best practice in oil and gas operations in the UKCS and other areas of activity.
- A prolonged self-sufficiency in oil and gas, with deferment of abandonment costs, and life extension of facilities and infrastructure.
- Possible reductions in decommissioning costs.

II.2.5. Award criteria

Quality criterion - Name: Relevant experience and track record providing good professional advice in relation to offshore oil and gas exploration, production, decommissioning, including specific knowledge of UKCS activities / Weighting: 25

Quality criterion - Name: Availability and adequacy of staff capable of undertaking work relating to wide range of technical environmental and decommissioning issues / Weighting: 15

Quality criterion - Name: Ability to undertake work within set time-scales and at short notice, including responding to urgent requests for advice and attending meetings at short notice / Weighting: 15

Quality criterion - Name: Ability to undertake, or commission, specialist studies as necessary, e.g. modelling emissions and discharges, oil spills, sound propagation, etc. / Weighting: 10

Quality criterion - Name: Track record of providing similar services to other clients, e.g. offshore oil and gas operators, government bodies, etc. / Weighting: 10

Quality criterion - Name: Experience of sub-contracting for specialist studies requested by customers / Weighting: 10

Cost criterion - Name: Cost (The lowest bid will receive maximum marks and all other bids will be marked in proportion to that bid) / Weighting: 20
