Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

The political instruments at EU level, which have called on Member States to jointly procure 155 mm ammunition in the fastest way possible before 30 September 2023 from the European defense industry (and Norway) within the parameters defined in the context of an existing EDA project or through complementary joint acquisition projects led by a Member State. The unprovoked attack, in February 2022, by the Russian Federation against Ukraine and the imperative need, as acknowledged at EU political level, accounts for a situation of 'crisis', under the meaning of the Defence Directive. Being brought about by events unforeseeable by the contracting authority, this military crisis justifies invoking 'reasons of extreme urgency' under both the Defence Directive and the EU Financial Regulation.

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)
