Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Export of Incinerator Bottom Ash (IBA) from Jersey to specified outlets within the European Union.

II.1.2. Type of contract and place of performance or delivery

Services

NUTS code UKZ Extra-Regio NUTS 1

II.1.3. Information about a framework agreement or a dynamic purchasing system**II.1.4. Information about framework agreement****II.1.5. Short description of the contract or purchase(s)**

TTS would like to invite expressions of interest from contractors able to haul IBA from Jersey

to specified outlets within the European Union by various means including but not limited to;

- Sea,
- Road,
- Rail,
- Other.

The States of Jersey produces approximately 15000 tonnes of IBA per year from the treatment of municipal solid waste (MSW) and commercial waste that is similar in nature to MSW.

Jersey's energy from waste (EfW) facility began full scale operation in 2011 and incorporates gas cleaning that enables emissions to meet the limits established in the EU Waste Incineration Directive (replaced by the EU Industrial Emissions Directive).

The States of Jersey has a need to implement a new regular export arrangement. This will form the States of Jersey's long term strategy to manage IBA.

There has been no analysis of the IBA to confirm waste classification or whether the IBA produced on Island is hazardous or not. However prior to this analysis being undertaken it is expected that the IBA produced on Island will be classified under EWC code 19 01 12.

Because this material will be exported for recovery / recycling only, there is no restriction on where it can be sent within the European Union. Therefore expressions of interest are invited from all companies at this point regardless of location.

Tender documents are not available yet but will be available for completion from the beginning of November. By registering an interest now you will be automatically notified when tender documents are available.

There will be a requirement to attend a tender seminar on Island during the tender process.

II.1.6. CPV code(s)

60640000 Shipping operations, 63521000 Freight transport agency services, 34144750 Cargo carriers, 63100000 Cargo handling and storage services, 90533000 Waste-tip management services
