

Denmark-Toender: Drilling rig
OJ S 195/2013 08/10/2013
Contract notice – utilities
Works

Directive 2004/17/EC

Section I: Contracting entity

I.1. Name and addresses

Official name: Toender Fjernvarmeselskab AMBA

Postal address: Oestergade 83

Town: Toender

Postal code: 6270

Country: Denmark

For the attention of: Johnny Pedersen

E-mail: e-mail@tonder-fjernvarme.dk

Telephone: +45 74722801

Internet address(es):

General address of the contracting entity: <http://www.tonder-fjernvarme.dk>

Additional information can be obtained from:

Official name: Ross Engineering A/S

Postal address: Bentzonsvej 6-8

Town: Frederiksberg

Postal code: 2000

Country: Denmark

For the attention of: Helle Jespersen

E-mail: helle.jespersen@rossengineering.dk

Internet address: <http://rossengineering.dk/>

Specifications and additional documents (including documents for a dynamic purchasing system) can be obtained from:

Official name: Steffensen Horstmann

Postal address: Sct. Mathias Gade 23

Town: Viborg

Postal code: 8800

Country: Denmark

For the attention of: Tine Ladefoged

E-mail: tlc@steffensenoghorstmann.dk

Telephone: +45 87274714

Internet address: <http://www.steffensenoghorstmann.dk/>

Tenders or requests to participate must be submitted:

Official name: Steffensen Horstmann

Postal address: Sct. Mathias Gade 23

Town: Viborg

Postal code: 8800

Country: Denmark

For the attention of: Tine Ladefoged

E-mail: tlc@steffensenoghorstmann.dk

Telephone: +45 87274714

Internet address: <http://www.steffensenoghorstmann.dk/>

I.2. Main activity

Production, transport and distribution of gas and heat

I.3. Contract award on behalf of other contracting entities

The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Land drilling rig for geothermal wells.

II.1.2. Type of contract and place of performance or delivery

Works

Main site or place of performance: Toender, Denmark.

NUTS code DK032 Sydjylland

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Tender for a land drilling rig for geothermal wells. The work is for up to 4 wells. The number of wells depend on the outcome of flow test. The work is expected to begin April/May 2014.

II.1.6. CPV code(s)

43132200 Drilling rig

II.1.7. Information about the Government Procurement Agreement (GPA)

II.1.8. Information about lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

up to 4 wells

II.2.2. Information about options

Options: yes

Description of options: Up to 4 wells. Drilling of more than the first well depends on how successfull the first well is.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Start 1.5.2014 Completion 1.5.2015

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

None, but if the applicant is a consortium all information and statements must be provided for each participant in the consortium. The consortium must point out one person, who acts on behalf of the consortium. All the participants in the consortium must be jointly and separately liable for performance of the contract.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: The drilling rig must be approved by The Danish Energy Agency. The approval will not be part of the prequalification procedure, but the approval will be required before entering into contract.

The contracting authority reserves the right to inspect the rig before decision of prequalification is made.

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: 1. The applicant must fill out, date and sign the appendix A, where the applicant confirms that:

a) it has not been the subject of a conviction by final judgement concerning participation in a criminal organisation, corruption, fraud or money laundry.

b) it has not been bankrupt or wound up, where the applicant's affair has been administrated by the court or has entered into an arrangement with creditors or has suspended business activities or is in any analogous situation arising from a similar procedure under laws and regulations.

c) it has not been the subject of proceedings for a declaration of bankruptcy, for an order for compulsory winding up or administration by the court or of an arrangement with creditors or of any other similar proceedings under national laws and regulations.

d) it has not been convicted by a judgement, which has the force of res judicata in accordance with the legal provisions of the country of any offence concerning its professional conduct.

e) it has not been guilty of grave professional misconduct proven by any means which the contracting authority can demonstrate;

f) it has fulfilled obligations relating to the payment of social security contributions in accordance with the legal provisions of the country in which the tenderer is established or with those of Denmark.

g) it has fulfilled obligations relating to the payment of taxes in accordance with the legal provision of the country in which the tenderer is established or with those of Denmark.

h) it has not been guilty of serious misrepresentation in supplying the information required or has not supplied such information related to the above mentioned grounds.

2. The applicants must fill out, date and sign appendix B regarding Consolidation Act on limitation of debtors participation in public work contracts etc. The applicant must confirm, that it has either:

a) no outstanding debts payable to any public authorities.

b) no outstanding debt payable to public authorities, but such does not exceed DKK 100 000 or an equivalent amount in another currency

c) outstanding debt payable to public authorities and such debt exceeds DKK 100 000 or an equivalent amount in another currency

The applicant must not have any mature debts to any public authority according to Danish law or under the laws of the country in which the tenderer has its registered office of more than DKK 100 000.

3. If the applicant is a consortium the appendix A and B must be provided for each participant in the consortium.

III.2.2. Economic and financial ability

III.2.3. Technical and professional ability

List and brief description of conditions: The applicant must provide:

1. A list of most important - and at least 1 - comparable contracts/references completed by the applicant during the last 3 years. The references must demonstrate experience with drilling troublesome formations such as shale-formation. The reference list must state the place of work, time, name and telephone number of the recipient. The contracting authority reserves the right to contact the references.

2. The applicant must provide details of the electrical rig that will be offered to the work. The rig shall be able to drill, test and complete up to 4 wells to a depth between 2 000-2 500 meters (vertical or deviated). The rig must fulfill the following requirements and the applicant must forward documentation that:

a) the rig is electrical and hydraulic driven and is able to operate on external power supply from the public grid 10 or 15 kV/2000 kVA. Diesel generators must only be used for peak load and break down supply.

b) the rig must be suitable for operation in build-up areas with strict noise regulation during nights and weekends. The noise level at living houses is 35 DB(A). The distance between work and living houses is 115 meters. The contracting authority establish a 4 meter high baffle wall. The applicant must forward noise level charts for the rig in operation.

c) the rig has noise reduction equipment installed for casing handling, centrifuges and shakers to secure fulfillment of the noise regulations.

d) the rig has a hookload capability of 250 metric tons

d) the rig has a mud pump capability of 3 750 lpm

e) the rig has a drilling fluid capacity of 200 cubic meters

f) the rig has at minimum a 3 000 psi blowout preventer stack

g) the rig is equipped with a top drive system.

h) the rig is equipped with casing running service

i) the rig is fully winterised to be able to operate in Danish winter conditions

j) the rig has a HQSE-system (does not need to be forwarded with the application of prequalification)

All the above mentioned requirements must be documented by the provisions sent forward (except the HQSE-system. It is sufficient that the applicant declares, that the rig has a HQSE-system).

The contracting authority or its representatives reserves the right to inspect the rig before the choice of applicants for prequalification. The tenderer must fill out appendix C regarding location of the rig for the expected inspection time. The contracting authority can during the inspection carry out an on-site audit of the rig's HQSE-system, which must show that the rig performs according to the standards set out in the HQSE-system.

3. The applicant must provide CV's for qualified crew for the operation. CV's for key-personnel

such as toolpusher, drillers and assistant drillers must be provided and these persons must hold valid IWCF- or IADC-certificates. Copies of the IWCF- or IADC-certificates must be enclosed. The CV's must show relevant experiences and the key-personnel must have strong communication skills in English. The CV's shall be for the persons planned to operate the rig during the work. Replacement of key-personnel must be accepted by the contracting authority.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures): no

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: ..

IV.3.4. Time limit for receipt of tenders or requests to participate

7.11.2013 - 10:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

Danish. English.

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.3. Additional information

The applicants must require the appendix A, B and C by sending an e-mail to
tlc@steffensenoghorstmann.dk

The application for prequalification with the required material and appendixes must be sent
by email to: tlc@steffensenoghorstmann.dk

If the application is not received within the time-limit for request of participation or does not have
the required material or appendixes the application for prequalification will not be taken into
consideration.

3-5 participants will be prequalified or fewer if not enough adequate or suitable applicants are
received. If more adequate and suitable applicants are received than the numbers of applicants
to be prequalified, the selection will be made on the forwarded documentation on the
specification of the rig, the inspection and the audit of the rig if inspected, list of references and
CV's of the crew.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Klagenævnet for Udbud
Postal address: Langelinie Alle 17
Town: Copenhagen
Postal code: 2100
Country: Denmark
Internet address: www.klfu.dk

VI.4.2. Review procedure

Precise information on deadline(s) for review procedures: Complaints about lack of
prequalification must be submitted to Klagenævnet for Udbud within 20 days from the day
following the day on which the contracting authority has sent notice to the applicants involved.
Copy of the complaint must be sent to contracting authority.

VI.4.3. Service from which information about the review procedure may be obtained

Official name: Konkurrence- og Forbrugerstyrelsen
Postal address: Carl Jacobsens Vej 35
Town: Valby
Postal code: 2500
Country: Denmark
Internet address: www.kfst.dk

VI.5. Date of dispatch of this notice

4.10.2013
