Airport-related activities

I.3. Contract award on behalf of other contracting entities

The contracting entity is purchasing on behalf of other contracting entities: yes

Official name: Avinor AS
National registration number: 985 198 292
Town: Gardermoen
Postal code: 2061
Country: Norway

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Stavanger Airport Sola, P-184624 — Ground works.

II.1.2. Type of contract and place of performance or delivery

Works
Execution
Main site or place of performance: Sola, Norway.
NUTS code NO05 Vestlandet

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Avinor shall expand central areas at Stavanger Airport Sola (shortened SLS-USO1). The expansion consists of expanding the departure hall and storage building which has already begun, as well as expanding the arrivals and customs area (this announcement). The new construction's foundation plate is approximately 2 300 m². The building will be founded on friction piles which will be pushed down to a depth of 35 m to 40 m.

Pile footings, lift well and foundation plate including concrete slab will be case on-site.

Supporting columns will be of prefabricated concrete combined with steel columns. Other floors consist of hollow core slabs on HSQ joists of steel as well as prefabricated concrete joists.

This contract covers ground works as well as demolition of some existing constructions. The current plan for execution is in the period 1.2.2016-1.5.2016.

Examples of work which may be included in the contract:

- Rigging works for the Contractor.
- Demolition of the existing hire vehicle building and interim reinforcement/support of pillars in those that are not to be demolished.
- Raising of interim facades where the hire vehicle building will be demolished as well as protection of the existing glass facade to the hotel.
- Excavation and back filling under the foundation plate and lift well.
- Excavation for new for under ground cables.

Other conditions:

- The construction area lies on the land side (white zone) during the entire construction period.
- The airport is in operations while the construction works are being carried out. Contractor must take this into account.
- The expansion will be built against the existing constructions. This will increase the degree of difficulty of construction works.
- There are a number of existing cables in the construction area including high voltage cables. These must be safeguarded.

II.1.6. CPV code(s)

45213331 Airport buildings construction work, 45000000 Construction work

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no
