#### **II.2.14. Additional information**

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Tenderer must have proper conditions regarding the payment of tax and value added tax.

Documented by value tax certificate (national requirements) and company tax certificate

(national requirements) not older than 6 months from the date of submission of tenders, issued

by the competent authority confirming that the tenderer has fulfilled obligations regarding payment of taxes, social security contributions and VAT. Any arrears and other irregularities must be justified.

The tenderer must be a legally registered company. Documented by evidence of enrolment in the professional trade register, as required by national law in the country where the tenderer is established. For Norwegian suppliers, this will be a company registration certificate from Brønnøysundregistrene.

The tenderer must, by means of signed self-declaration, document that ILO Convention No 94 on pay and working conditions is complied with self-declaration of health, safety environment policy.

### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

The tenderers profitability and financial position will be considered when selecting supplier.

The Awarding Authority will obtain information from Bisnode Norge AS. Credit rating A "worthy of credit" with sub-appraisal on economy equivalent to "satisfactory" and solvency equivalent to "acceptable" will be required. Any sub-supplier the tenderer wants to use for exchange tradings of electricity/energy trading management must also fulfill the requirements. For newly established tenderer where credit rating is not attainable, minimum 10 000 000 NOK in invested equity will be required. The above listed requirements will be withdrawn if the tender includes bank guarantee or guarantee from parent company which meets the specified requirements for credit ratings and sub-appraisals. The guarantee must include all obligations given in the contract.

The tenderer shall not be bankrupt, demanded bankrupt, subject to insolvency proceedings, in liquidation or demanded forcibly dissolved. Documented by certificate issued by competent authority confirming that the supplier satisfies the requirement. The certificate must not be older than 6 months from the date of submission of tenders.

### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

The tenderer must document implementation capacity.

Documented with an overview of the most principal deliveries (both public and private customers), including an overview of at least 3 physical deliveries which have added annual turnover per customer of minimum 8 000 000 NOK ex. VAT in the period 2015 - 2017 — a total of 3 deliveries for the three years (either these 3 deliveries have been carried out in one delivery year or during the three year period), with information of delivery time, recipient and turnover in NOK, plus an overview of 3 the principal deliveries of energy trading management effected in the period 2013 - 2017 with a statement of annual volume in GWh, dates and recipients.

It is required that the tenderer (or the tenderers subcontractor) has a minimum of 5 years experience as a supplier of energy trading management.

The person who daily will perform energy trading management must have a minimum of 4 years of practical experience in this type of tasks. Tenderer must deliver a description of the organization that performs the energy trading management as well as CV for the person who daily will perform the energy trading management.

The tenderer must be able to send invoices electronically.

Self-declaration.

The tenderer must be able to obtain consumer data in accordance with the Norwegian Water Resources And Energy Directorates regulations. Self-declaration.

The tenderer must have concession for delivery of electric power.
