Official name: Midt-Telemark Kommune

Email: [antr2005@intk.no](mailto:antr2005@intk.no)

Legal type of the buyer: Public undertaking

Activity of the contracting authority: General public services

## 2. Procedure

---

### 2.1. Procedure

Title: Framework agreement for the procurement of mobile telephones and additional equipment for eight municipalities in Telemark.

Description: The aim of the procurement is to enter into a framework agreement for the procurement of mobile telephones, accompanying accessories and associated services that naturally follow the delivery, for use by the municipality's employees and administration.

Procedure identifier: ae3f658d-c0bf-4ea3-93a3-5fd90e2ec7e7

Previous notice: 8e262fd6-f860-495c-8444-4083b074fe1c-01

Internal identifier: 4935

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: no

Main features of the procedure: The contracting authority has decided to cancel the competition. The reason for the cancellation is that after the competition has been announced, the Contracting Authority has been notified that one of the requirements in the requirement specifications is unfortunately designed and can have a competitive effect. This applies to the following requirement 5 in the requirement specification. The requirement involves a mix of performance responsibilities between two normally separate contract areas, by the supplier of mobile telephones and accessories being faced with expectations connected to SIM cards, operator relationships and the transition between telephony service suppliers. According to the Contracting Authority's assessment, this may seem competitive, partly because suppliers with specific operator connections, established integrations or special collaboration models can appear better than other suppliers, without this necessarily having a direct connection with price, quality or implementation ability for the actual goods delivery. The contracting authority therefore considers that the requirement should be removed. Such a change can affect the tenderers' assessment of the competition, including whether the tenderers would like to participate and how the tenderers would be adapted to the competition. The amendment cannot, therefore, be seen as a minor correction or clarification that can be implemented in the ongoing competition. In order to take care of equal treatment, predictability and competition, the Contracting Authority considers that there is a justifiable reason to cancel the competition. The contracting authority will review and adjust the tender documentation and aim to re-

announce the competition as soon as possible. We apologise for the inconvenience this cancellation has for the tenderers who have submitted a qualification application.

#### **2.1.1. Purpose**

Main nature of the contract: Supplies

Main classification (cpv): 32250000 Mobile telephones
