II.1. Description**II.1.1. Title**

Hub network — Terminal and pipeline network- 'Green network'.

II.1.2. Type of contract and place of performance or delivery

Works

Design and execution

Main site or place of performance: Bergen, Norway.

NUTS code NO051 Hordaland

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)**II.1.4. Short description of the contract or purchase(s)**

The procurement is for the construction of a hub network and terminal, carried out as a turnkey contract as well as an operation and maintenance contract:

The contract work comprises engineering design services, delivery and assembly of 2 complete hub networks, which the builder will decide to develop within a limited geographical area, as well as a complete joint double terminal and all the control units that have communication interface between the main network and the sub networks (of which the latter is not included in the contract).

The provisional estimated extent is 12 000 residential units and 10 km pipe and 315 downchutes.

The erection of the building where the terminal shall be assembled will be put out to competition as a separate contract and is not included in this procurement. The necessary excavation work will be carried out by contractors contracted by the builder and is also not included in the contract work.

The delivery and assembly of a pipeline network, downchutes, storage parts and control units shall be in accordance with call-offs, cf. the description of the call-off mechanism and the work procedure in the tender documentation.

The contract work also includes responsibility for the operation and maintenance of the main network, including the terminal — the entire delivery, up until it is handed over, as well as existing installations, cf. the description in tender documentation.

The development period will stretch over time and will be carried out in stages. However the aim is that the terminal shall be completed and commissioned in the 4th quarter of 2017.

The provisional development period is estimated to 10 years, but this is uncertain.

II.1.5. CPV code(s)

45231112 Installation of pipe system, 44160000 Pipeline, piping, pipes, casing, tubing and related items, 44161000 Pipelines, 44162000 Piping, 45231110 Pipelaying construction work, 71322200 Pipeline-design services

II.2. Total value of the contract/lot

II.2.1. Total value of the contract/lot

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.2. Award criteria

IV.2.1. Award criteria

Lowest price

IV.2.2. Information about electronic auction

An electronic auction has been used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

IV.3.2. Previous publication concerning this procedure

Contract notice

Section V: Award of contract

Contract No: 1

Lot No: 1

- Lot title: Development, operation and maintenance of the Hub network — Terminal and pipeline network- 'Green network'

V.1. Date of conclusion of the contract

9.9.2016

V.2. Information about tenders

Number of tenders received: 2

Number of tenders received by electronic means: 2

V.3. Name and address of the contractor

Official name: Envac Norge AS

National registration number: 982368634

Postal address: Ensjøveien 23B

Town: Oslo

Postal code: 0661

Country: Norway

Telephone: +47 22087000

V.4. Information on value of the contract/lot

Total value of the procurement:

Value: 183 778 051 NOK

Including VAT. VAT rate (%) 25

V.5. Information about subcontracting

The contract is likely to be subcontracted: no

Section VI: Complementary information
