Norway – Waste and rubbish containers and bins – Framework agreement for the procurement of waste containers

OJ S 95/2026 19/05/2026

Contract or concession notice – standard regime

Supplies

1. Buyer

1.1. Buyer

Official name: Avfall Sør AS

Email: lsm@avfallsor.no

Legal type of the buyer: Public undertaking, controlled by a local authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Framework agreement for the procurement of waste containers

Description: The framework agreement is for the procurement of waste containers that shall be placed outside with our customers. The waste containers with lids shall be suitable for all types of waste and in accordance with the requirements described in annex 4, Requirement Specifications for waste containers.

Procedure identifier: 9645026c-7aa0-4d05-8200-9d449806c6e9

Internal identifier: 2026/40

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: Our subscribers have per. currently 4 containers and sort waste into the following fractions; residue waste, cardboard/paper, glass/metal and bio-waste. The offered waste containers shall be suitable for collecting all types of fractions. A "normal" subscription per d.d consists of 4 140 litres of waste containers. The competition is for the procurement of: Grey waste containers size 140 litres, 240 litres, 660 litres and 1,000 litres. A grey lid that is suitable for the waste containers. Gravitational locks to the waste containers. Spare parts for the waste containers. Requirements for the waste containers and delivery are further described in annex 4 Requirement Specifications for waste containers. The contracting authority will aim for all orders going up to a full load. Two wheeled containers will be full load, four wheeled containers will most often be full load. Please state the number of containers that make up a full load.

2.1.1. Purpose

5.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 34928480 Waste and rubbish containers and bins

Additional classification (cpv): 44613800 Containers for waste material

5.1.2. Place of performance

Country subdivision (NUTS): Agder (NO092)

Country: Norway

5.1.3. Estimated duration

Start date: 09/07/2026

Duration end date: 09/07/2027

5.1.4. Renewal

Maximum renewals: 3

Other information about renewals: 1+1+1 year (one + one + one year)

5.1.6. General information**Reserved participation:**

Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): no

5.1.9. Selection criteria

Sources of selection criteria: Procurement Document

5.1.10. Award criteria**Criterion:**

Type: Price

Name: Price

Description: Tenderers shall state their prices in annex 3; "Price Form". The prices shall be stated in NOK, excluding VAT. The offered products shall be in accordance with annex 4 requirement specifications. The stated prices shall include all expenses associated with the assignment. Costs that are not specified by the contracting authority, but which the tenderer knows will apply, are to be seen as included in the stated prices. Freight shall be included in

the prices. Tenderers must submit a completed Price Form (annex 3) so that the contracting authority can evaluate the tenders, a inadequate completed Price Form can lead to rejection. Evaluation: The total price in the Price Form annex 3 will form the basis for the evaluation of the award criteria price. Tenderers shall submit a completed Price Form (annex 3), a inadequate completed Price Form can lead to rejection, as the Contracting Authority is unable to compare the price. The offered products shall be in accordance with Annex 4 Requirement Specifications. The stated prices shall include all expenses associated with the assignment. Costs that are not specified by the contracting authority, but which the tenderer knows will apply, are to be seen as included in the stated prices. Freight shall be included in the prices. The lowest "total price" (ref. Annex 3 price form) will be given 10 points, the other tenderers will get points relatively compared to the tenderer with the lowest "total price". The achieved score will then be multiplied by the stated weight.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 50

Criterion:

Type: Quality

Name: Environment

Description: The contracting authority would like waste containers with lids that are produced by the most post consumer regranulat (PCR). Tenderers shall state the amount of PCR used in the production of offered waste containers and lids. The percentage of used PCR shall be stated as a percentage. The reuse of regranulat from the manufacturer's own production is not equal with PCR. The contracting authority would like waste containers with lids that are produced in such a way that the environment is best possible taken care of and that the waste containers with lids have the longest possible function guarantee. Tenderers are requested to describe how the environment is safeguarded by the production and treatment of the waste containers. The stated function guarantee in point 7.1, annex 4 Requirement Specifications, will be a part of this award criteria. If waste containers with lids are environmentally certified, this can be documented by a valid certificate of third-party certification, e.g. Blue Angel or equivalent. Evaluation: On the award criteria environment, an overall assessment of the following points will be evaluated. The contracting authority would like waste containers with lids that are produced by the most post consumer regranulat (PCR). Tenderers shall state the amount of PCR used in the production of offered waste containers and lids. The percentage of used PCR shall be stated as a percentage. The reuse of regranulat from the manufacturer's own production is not equal with PCR. The contracting authority would like waste containers with lids that are produced in such a way that the environment is best possible taken care of and that the waste containers with lids have the longest possible function guarantee.

Tenderers are requested to describe how the environment is safeguarded by the production and treatment of the waste containers. If any of the waste containers are third party environmentally certified, this can be documented by a valid certificate, e.g. Blue Angel or equivalent. The stated function guarantee in annex 4, point 7.1 will be included in the overall evaluation of this criteria. In the evaluation, the contracting authority will carry out an overall assessment based on the tenderer's response to the above points, how much of the waste containers with lids have been produced with PCR, what environmental measures have been carried out in the production and treatment of waste containers with lids, function guarantee and how many of the offered waste containers with lids are environmentally certified by 3 parties. The above bullet points will be weighted equally in the evaluation.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 30

Criterion:

Type: Quality

Name: Ergonomics

Description: Tenderers are requested to describe how the waste containers are designed and designed to safeguard ergonomics/HSE for the renovators. The tenderers are requested to state what considerations and what measures have been taken to make the work easier and better for the renovators. Evaluation: The tenderer's description of the design and design of waste containers that improve the daily life for the renovators. This will form the basis for evaluating the award criterion ergonomics. The contracting authority would like to procure waste containers that best safeguard HSE/ergonomics for the renovators, which gives the best possible work day and as much work as possible. The design and measures that the tenderer describes will be included in a procuremental overall assessment of the award criteria ergonomics.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 20
