Transport and final treatment of hazardous waste in small packages from the Awarding Authority.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 16: Sewage and refuse disposal services; sanitation and similar services

Main site or place of performance: Toraneset Miljøpark, Haraldseidvågen, 5574 Skjold, Norway.

NUTS code

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Transport and final treatment of hazardous waste in small packages from Haugaland Interkommunale Miljøverk IKS, henceforth referred to as the Awarding Authority

NOTE: To register your interest in this notice and obtain any additional information please visit the Doffin Web Site at http://www.doffin.no/Search/Search_Switch.aspx?ID=305168

II.1.6. CPV code(s)

90520000 Radioactive-, toxic-, medical- and hazardous waste services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Transport and final treatment of approx. 130 tonnes hazardous waste per annum. Included in the price shall be approved packaging (open and sealed Intermediate Bulk Container, barrel with clamping ring/spons, pallets with internal plastic protection and frame) and transport from the Awarding Authority's premises to an approved final treatment plant.

Most of the waste comes from private households which deliver hazardous waste to the Awarding Authority's plants. Quantity and composition of the waste may vary over time. Quantity of waste, composition and transport requirements in 2012 are described in the attached matrix. The total price evaluated in the tender shall be stated as a function of the tenderer's price per kg and the Awarding Authority's waste quantity and transport requirement in 2012.

The unit prices given in the price matrix are to be considered as price list. Since the Awarding Authority occasionally also receives other waste fractions than those listed in the matrix, a complete pricelist shall be enclosed

Estimated value excluding VAT:

Range: between 3 000 000 and 4 000 000 NOK

II.2.2. Information about options

Options: yes

Description of options: Other types of hazardous waste than what is listed in the attached matrix may also be included in the agreement. The agreement period is 4 years with option for 1 year + 1 year prolongation

Provisional timetable for recourse to these options:
in months: 24 (from the award of the contract)

II.2.3. Information about renewals

This contract is subject to renewal: yes

Number of possible renewals: 2

II.3. Duration of the contract or time limit for completion

Start 1.1.2014. Completion 31.12.2017

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

The prices are fixed in 2014 and 2015. This means that the first price adjustment is from 1.1.2016.

Credit days: to the end of the month + 30 days. Price adjustment:

Treatment - Statistics Norway's (SSB) consumer price index per October.

Transport - Statistics Norway's price index for 'long-haul transport, 3 axle vehicle with trailer' (per October). The prices shall be quoted in NOK.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: It is preferred that the service providers are certified or qualified for certification for one or several of the following systems:

ISO 14001 or equivalent.

Eco-Lighthouse.

The EU flower.

The Swan Ecolabel.

The vehicle shall be in good technical condition and as a minimum have a Euro-4 engine. The Awarding Authority's service providers shall preferably be member of the Green Point Norway system, or shall substantiate that their suppliers and manufacturers of packaging are members. The service provider shall have sufficient competence within the field. The organisation plan must be attached the tender and the competence to the key personnel must be documented. The service provider must act in accordance with prevailing laws and regulations for the field. The service provider's key personnel as well as the transporter must be able communicate in Norwegian.

If electronic declaration is required during the agreement period, the service provider/tenderer must use the same system as the Awarding Authority or have a system compatible with the system chosen by the Awarding Authority.

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: (1) Value added tax certificate (National requirement)
(2) Company tax certificate (National requirement)
(3) Self-declaration in compliance with Appendix 2 (HSE) of the Norwegian procurement regulations (National requirement)

III.2.2. Economic and financial ability

List and brief description of conditions: (1) Presentation of the company's annual accounts, or extracts thereof

III.2.3. Technical and professional ability

List and brief description of conditions:

- (1) A list of the principal deliveries effected, or main services provided, by the company, in the past 3 years, with the values, dates and recipients (for supply and service contracts)
- (2) A statement of the company's health, environment and safety policy
- (3) A statement of the quality assurance/quality control system operated by the company.

The tenderer shall describe the transport system, including degree of return transport, Euro class/environmental standard on lorries expected to be used, etc. Description of material recycling degree, energy recovery degree and other conditions in relation to the plant's environmental standard.

Upon request, the Awarding Authority can review and verify how the service provider safeguards health, safety and environment

Minimum level(s) of standards possibly required:

The service provider must have sufficient capacity to collect hazardous waste 2 weeks/10 work days after booking. The necessary personnel must have sufficient competence, course and certificates stated above.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.1.2. Information about the limits on the number of candidates to be invited

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Criteria below

1. Price. Weighting 85
2. Environment. Weighting 15

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

IV.3.2. Previous publication concerning this procedure

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

Time limit for receipt of requests for documents or for accessing documents: 15.11.2013

IV.3.4. Time limit for receipt of tenders or requests to participate

28.11.2013 - 19:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

Other: Norwegian

IV.3.7. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 2 (from the date stated for receipt of tender)

IV.3.8. Conditions for opening of tenders

Date: 2.12.2013 - 11:00

Place:

Toraneset Miljøpark, Norway

Section VI: Complementary information

VI.1. Information about recurrence
