The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Procurement, Installation and Maintenance of Automated Border Control System with Self-Service Systems and e-Gates.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

Main site or place of performance: Helsinki Airport Vantaa

II.1.3. Information about framework agreement**II.1.4. Information about framework agreement****II.1.5. Short description of the contract or purchase(s)**

Procurement, installation and maintenance of an automated and machine assisted border control concept comprising self-service kiosks, e-Gates and supporting components of manual border checks.

The procurement and deployment will be divided in the following steps:

- Installation of 50 e-Gates during 2019,
- Installation of self-service kiosks and manual control devices during 2020,
- Definition and deployment of new workflows during 2020.

Installation of the e-Gates will comprise deployment of existing workflows for EU- and TCN citizens in the existing infrastructure, including the usage of web-services. At the final stage all the devices and manual booths are required to function as one integrated concept, including 1:1 and 1:n facial verification/identification.

II.1.6. CPV code(s)

31600000 Electrical equipment and apparatus, 51110000 Installation services of electrical equipment, 72000000 IT services: consulting, software development, Internet and support

II.1.7. Information about subcontracting

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: yes

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The scope includes the supply, installation, programming and putting into operation the following:

- 50 e-Gates of a 1-step mantrap structure,
- (Estimated) 44 self-service kiosks,
- Facial cameras, fingerprint scanners and touch screens with functionalities comparable to those of the self-service kiosks of 56 manual control booths,
- Monitoring system, including a mobile and remote monitoring possibility and CCTV,
- Centralized H/W and S/W administration and monitoring solution,
- All required servers, databases and storage.

The implementation of the concept shall indicatively include:

- Provision of gates with mechanical doors having the ability of manual operation,
- Peripheral devices necessary for the scanning, alerting, security/safety modules, in order the passenger/user to perform the border check process,
- Integration to the existing government query systems and webservices,
- Implementation of the existing workflows and a Project to implement those imposed by the Entry-Exit System,
- Software, along with the respective licenses,
- Software customization of the application, if necessary,
- Performing necessary tests to demonstrate and ensure proper operation,
- Supply of documentation, including those connected to data protection and GDPR compliance,
- Perform knowledge transfer and provide training material,
- Onsite installation and post rollout support and maintenance services as agreed later,
- Submission of maintenance reports.

More details will be included in the Tender Documents which will be submitted to the tenderers admitted to the procedure.

Estimated value excluding VAT:

Range: between 6 000 000 and 7 500 000 EUR

II.2.2. Information about options

Options: yes

Description of options: Installation of three to five e-Gates at Port of Helsinki.

Provision of 10-20 additional Self-Service Kiosks.

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Duration in months: 60 (from the award of the contract)

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Other particular conditions to which the performance of the contract is subject, in particular with regard to security of supply and security of information

For more information, please see Annex 1.

III.1.5. Information about security clearance

III.2. Conditions for participation

III.2.1. Personal situation

Criteria regarding the personal situation of economic operators (that may lead to their exclusion) including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: A Restricted Procedure has been adopted for the award of contract. A restricted procedure means a procurement procedure in which the contracting authority publishes a contract notice and any candidate may request to participate. The invitation to tender will be sent only the qualified tenderers.

Candidates are hereby asked to fill in the Pre-Qualification Questionnaire attached to this Contract notice.

The Questionnaire with the required documents shall be sent to following address no later than 24.8.2018 at 16:00 o'clock (local time in Finland).

kaupallinen_yksikko.rvle@raja.fi

Criteria regarding the economic and financial standing of subcontractors (that may lead to their rejection)

List and brief description of conditions: Standards applicable to the different devices of the components and biometrics. Further details will be provided in the tender documents.

III.2.3. Technical and/or professional capacity

Criteria regarding the technical and/or professional ability of economic operators (that may lead to their exclusion)

List and brief description of conditions:

For more information, please see Annex 1.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Accelerated restricted

Justification for the choice of accelerated procedure Procedure is justified by the tight connection of the procurement and the Helsinki Airport construction works, where the detailed schedule of the different construction phases have been agreed only recently.

IV.1.2. Information about the limits on the number of candidates to be invited

Envisaged minimum number 3 and Maximum number 5

Objective criteria for choosing the limited number of candidates: Based on the vendors in the applicable field and market, the selected number is considered justified considering the number of suppliers having factual capabilities to implement the Project.

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Price is not the only award criterion and all criteria are stated only in the procurement documents

IV.2.2. Information about electronic auction

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

RVLDno-2018-477

IV.3.2. Previous publication concerning this procedure

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

IV.3.4. Time limit for receipt of tenders or requests to participate

24.8.2018 - 16:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

English.
