II.1.5. Short description of the contract or purchase(s)

Lotteritilsynet (LS) (The Norwegian Gaming Authority) shall, in accordance with the Norwegian Lottery Act, be able to carry out draws for approved lotteries.

Currently we have a desktop client which employees in LS use to execute draws. This client shall be phased out, and we are looking for a new solution.

Our minimum requirement is to procure a system which can replace the existing desktop system. We also want to investigate the possibilities of having a system with expanded functionality delivered. This system includes digital self-service, so that the lotteries are given the possibility to perform draws on their own.

The contest therefore includes the following:

— Delivery of a basic system with sufficient functionality to replace our existing desktop system.

— Delivery of an expanded system for digital self service.
