I.2. Type of the contracting authority

Body governed by public law

I.3. Main activity

Other: Other National Research and Education Network (NREN)

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Logistic Partner for Network Equipment.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

Main site or place of performance: Nederland.

NUTS code NL Nederland

II.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

II.1.4. Information about framework agreement

Framework agreement with a single operator

Duration of the framework agreement

Duration in months: 48

II.1.5. Short description of the contract or purchase(s)

SURFnet wishes to contract one or two Logistic Partner(s) (one for each lot or one for both lots) for 4 years to provide and support network equipment and software, compatible with SURFnet's existing network equipment. SURFnet aims to contract parties such as equipment manufacturers or their channel partners who — together with SURFnet — can maintain the state of the art network for Research and Education in the Netherlands with the high levels of quality that are expected by SURFnet's users.

The Contractor that results from this procedure will be responsible for:

1. Delivering network equipment and software for the ongoing extension of the current network. The network currently contains Ciena and Juniper equipment and software;
2. Supporting network equipment and software: the support will involve 3rd line maintenance and support for the Tendered Network containing Ciena and Juniper equipment and software in which the role and backing of these vendors is crucial, and any new equipment and software delivered as part of the activity under 1).

II.1.6. CPV code(s)

32420000 Network equipment

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: yes

Tenders may be submitted for one or more lots

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The Contractor that results from this procedure will be responsible for:

1. Delivering network equipment and software for the ongoing extension of the current network. The network currently contains Ciena and Juniper equipment and software.
2. Supporting network equipment and software: the support will involve 3rd line maintenance and support for the Tendered Network containing Ciena and Juniper equipment and software, and any new equipment and software delivered as part of the activity under 1).

II.2.2. Information about options

Options: yes

Description of options: Lot 1 contains the options for contractor to deliver additional network equipment for the purpose of extension and/renewal of management network (DCN) and

including appropriate maintenance and support. This is a mutual option, i.e. contractor is not obliged to offer, and SURFnet is not obliged to request an offer or purchase.

The possible contract value this part is less than 150k EUR.

Provisional timetable for recourse to these options:
in months: 48 (from the award of the contract)

II.2.3. Information about renewals

This contract is subject to renewal: yes

II.3. Duration of the contract or time limit for completion

Information about lots

Lot No: 1

Lot title: SURFnet IP core

1) Short description

— Delivery of network equipment and software which is fully compatible with the current SURFnet IP core consisting of Juniper equipment and software: T Series Core Network Routers, T4000;

— 3rd line maintenance and support for the equipment and software in the current SURFnet network IP core;

— 3rd line maintenance and support for the new equipment and software that will be delivered for the expansion of the IP core network.

Optional delivery of network equipment including appropriate maintenance and support for the management network (DCN). The possible contract value this part is less than 150k EUR.

2) CPV code(s)

32420000 Network equipment

3) Quantity or scope

The present two core routers will be retained. Possible purchases are likely to involve modules and software to keep up with the increase of customers and traffic, especially 100GE interface cards.

This information is given in good faith and does not represent a commitment or obligation to purchase.

Estimated value excluding VAT:

Range: between 1 000 000 and 1 500 000 EUR

4) Indication about different time frame or duration

5) Additional information about lots

To understand the scope of this tender it is important to note that management, operation and integration of the complete SURFnet network (e.g. monitoring, network operations, problem solving, design, configuration management, field services, warehousing) is the subject of a separate ongoing contract. Including the installation of the equipment resulting from this tender. Bids in response to this tender lot will be assessed on 'lowest cost'.

Lot No: 2

Lot title: 2 SURFnet Photonic Layer

1) Short description

— Delivery of network equipment and software which is fully compatible with the current SURFnet photonic layer consisting of Ciena equipment and software: CPL Family, and 6500 Family;

— 3rd line maintenance and support for the equipment and software in the current SURFnet

photonic layer;

— 3rd line maintenance and support for the new equipment and software that will be delivered for the expansion of the photonic layer.

2) CPV code(s)

32420000 Network equipment

3) Quantity or scope

Based on network expansions over the last 4 years and growth estimates, SURFnet expects to require DWDM equipment for the network expansion. The budget reserved these expansion is approximately 1.5 million EUR for the next 2 years.

This forecast information is given in good faith and does not represent a commitment or obligation to purchase.

4) Indication about different time frame or duration

5) Additional information about lots

To understand the scope of this tender it is important to note that management, operation and integration of the complete SURFnet network (e.g. monitoring, network operations, problem solving, design, configuration management, field services, warehousing) is the subject of a separate ongoing contract. Including the installation of the equipment resulting from this tender. Bids in response to this tender will be assessed on "lowest cost".

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded
