### 5.1.9. Selection criteria

Sources of selection criteria: Notice

Criterion: Enrolment in a relevant professional register

Description of selection criterion: Tenderers are registered in a professional register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex.

Criterion: Enrolment in a trade register

Description of selection criterion: Tenderers are registered in a company register or a trade register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex.

Criterion: Authorisation or membership of a particular organisation needed for service contracts

Description of selection criterion: Is it necessary to have specific authorisation from a particular organisation in order to provide the service in the tenderer's home country?

Criterion: Authorisation or membership of a particular organisation needed for service contracts

Description of selection criterion: Is it necessary to have a particular membership in a particular organisation in order to provide the service in the tenderer's home country?

Criterion: Measures for ensuring quality

Description of selection criterion: For goods or services that are complicated, or that in exceptional cases shall be used for a particular purpose: Will the tenderer allow checks of the tenderer's production capacity or technical capacity and, where necessary, of the survey and research facilities that the tenderer has at its disposal and of quality control measures? The inspections shall be undertaken by the contracting authority or the contracting authority can leave it to a competent public body in the country where the tenderer is established.

Criterion: Samples, descriptions, or photographs without certification of authenticity  
Description of selection criterion: Procurement of goods: The tenderer presents supplies that shall be delivered, requested samples, descriptions or photographs, which do not need to be accompanied by certificates that they are genuine.

Criterion: Samples, descriptions, or photographs with certification of authenticity for supply contracts

Description of selection criterion: When procurement of goods: If requested, the tenderer further declares that they will deliver the requested certificates that they are genuine.

Criterion: Certificates by quality control institutes

Description of selection criterion: Can tenderers submit the requested certificates issued by official bodies for quality control, and who can confirm that the goods, which are clearly identified by reference to technical specifications or standards, as determined in the notice or in the procurement documents, are in accordance with these?

Criterion: Certificates by independent bodies about quality assurance standards

Description of selection criterion: Can tenderers submit certificates issued by independent bodies that document that the tenderer fulfils the stated quality assurance standards, including universal design requirements?

Criterion: Certificates by independent bodies about environmental management systems or standards

Description of selection criterion: Is the tenderer able to submit certificates issued by independent bodies as documentation that the tenderer fulfils the stated environmental management systems or standards?

Criterion: Financial ratio

Description of selection criterion: Payment of tax, VAT and other public duties. This requirement only applies to Norwegian tenderers. Requirements: Tenderers must have their tax, payroll tax and VAT payments in order in accordance with the legal provisions and the tenderer must not have significant arrears. Any arrears or other irregularities must be justified. Documentation requirement: Tenderers shall document the requirement through the certificate "Information on tax and duties". The certificate shall be of the type "RF-1507" and not "RF-1316". Tenderers can order such a certificate from the Norwegian Tax Administration on behalf of their activities. Tenderers are asked to enclose the certificate in the tender or submit it on request. The tax certificate must not be older than six months calculated from the deadline for receipt of tenders. Read about the certificate here: <https://www.skatteetaten.no/skjema/opplysninger-om-skatt-og-avgift/>

Criterion: Other economic or financial requirements

Description of selection criterion: Credit rating Requirements: Tenderers must have the financial capacity to execute the contract. The tenderer is required to be credit worthy, minimum A, in accordance with Dun & Bradstreet's service riskguardian suite (<https://riskguardian.bisnode.no>), or have the financial capacity to execute the contract based on the contracting authority's discretion. Documentation requirement: The Contracting Authority will carry out their own assessment of the supplier's finances through RiskGuardian Suite. Tenderers can enclose other necessary information if they believe that RiskGuardian Suite does not provide a correct picture of the financial situation. The RiskGuardian Suite

service includes all Nordic countries. As a general rule, the Contracting Authority will not accept credit ratings from other company and accounting information systems than RiskGuardian Suite due to equal treatment of the tenderers. Foreign tenderers outside the Nordic countries will, however, use and accept credit appraisal through Dun & Bradstreet's service Credit (<https://credit.dnb.com/>). Tenderers that the contracting authority cannot find a RiskGuardian Suite (or Credit for suppliers outside the Nordic countries), e.g. newly established tenderers who have not built up a basis for a credit rating, must enclose a declaration/guarantee from a parent company/owner/bank or similar financing institutions, regarding the company's financial and economic position.

Criterion: References on specified works

Description of selection criterion: Experience Requirements: Tenderers are required to have carried out at least two similar assignments in the last 5 years. Similar assignments mean the following (it is sufficient for one of the bullet points to be fulfilled for each of the lessons learned): Diving work connected to submarine pipelines or other critical underwater infrastructure. Assignments that have included at least one of the following: inspection with documentation (photo/video/ROV). repairs or improvements laying or securing of submarine pipeline Minimum of one of the reference assignments shall have had a value of more than NOK 300,000 excluding VAT. The assignments shall be carried out in an equivalent environment, this means sea/fresh water, depth 30 m or more. Documentation requirement: Complete the annex "The Tenderer's experience" or other document with equivalent information. If another document is used, the response shall be maximum 1 A4 page. The response shall not include a cover page or table of contents. Any pages after page 1 will not be considered. Any links etc. in the reply will not be considered.

#### 5.1.10. Award criteria

**Criterion:**

Type: Price

Name: Price

Description: Weighting: The award criteria is weighted: 100% Orientation: Tenderers shall fill in the attached price form in their cost calculations and submit it as an annex to the tender in Excel format. All fields in the attached price form marked with yellow shall be completed. Missing the price fields can cause difficulties in assessing the tender and the tender can then be rejected. All prices are in NOK, excluding VAT, including all direct or indirect expenses and duties that could be incurred in connection with the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition. Costs that the tenderer knows will be incurred, but that are not specifically stated in the tender, will be seen as included in the stated costs. The estimated number of hours /assignments in the price form is approx. an estimate to have an evaluation basis on price, the actual hourly rate/assignment may deviate from this, and the contracting authority is not bound by this estimate. Hourly rates: Invoiced from the time the assignment actually starts at the assignment agreed address Overtime: Work beyond normal working hours 08.00-16-00 Diving team: The number in the diving team shall be in accordance with the current laws and regulations for manpower of a diving team. Travel time and rigging: Travel time: includes travel time in boats (all types of boats) or vehicles (all types of vehicles including trailers) for all personnel from the tenderer's address to the address. Rigging: Includes freight and assembly of all the necessary equipment for the assignment in question to the agreed address. Mobilisation: Travel: Includes travel time in boats (all types of boats) or vehicles (all types of vehicles including trailers) for all personnel from the supplier's address to the address of the meeting place. Rigging: Includes freight and assembly of all the necessary equipment for the

actual assignment to the agreed meet-up location. Evaluation: The total sum from the price form will form the basis of the price evaluation. When assessing the price, a hybrid model with break point 1 will be used. The attached template for the evaluation model is attached. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 100

**Criterion:**

Type: Quality

Name: Environment

Description: Justification for utilising the exclusionary provision in the regulations § 7-9 The contracting authority uses the exclusionary provision in PPR § 7-9 fourth paragraph, and has replaced the award criteria with climate and environmental requirements in the requirement specification. It is considered clear that this gives a better climate and environmental effect, and this is justified below. The procurement of diving services is a service contract where the service is the actual diving work. This is a service that is strictly regulated and has high requirements for security, and in this procurement tenderers must meet strict minimum requirements for certification, equipment and security procedures. Most of the emissions occur in diving services from the use of vessels to and from assignments and energy use in compressors and support equipment. The factors vessels, compressors and other technical equipment are necessary to carry out the assignments in a proper manner, and the contracting authority does not believe there are real alternatives that provide significant environmental gains without this being at the cost of safety, stand-by or operative ability. The contracting authority's assessment is that it is appropriate and appropriate to have requirements in the specifications of having procedures and systems that ensure a low environmental impact when carrying out the diving work, requirements for vessels and transport, requirements regarding waste handling and requirements for the use of products in the work. Furthermore, it is a requirement that meetings shall be held primarily digitally. It is considered that this clearly gives a better climate and environmental effect than when using award criteria.
