Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- Extreme urgency brought about by events unforeseeable for the contracting authority and in accordance with the strict conditions stated in the directive

Explanation:

Bangor University's current sport centre has been converted into a temporary hospital in response to the Covid-19 pandemic. Confirmation was received from the local health board on the 23 June 2020 that the temporary hospital would need to remain in situ until at least March 2021. With students due back on campus in September 2020, there is now an urgent requirement to establish temporary sports facilities to meet their needs. The University tested the use of a framework agreement for modular buildings but suppliers on the framework were either unable to meet the deadlines involved or did not respond to the request for expressions of interest. Therefore, the University decided to directly approach a supplier who could meet the University's requirements. The extreme urgency of the procurement has been brought about by events unforeseeable by the contracting authority and the time limits for the open or

restricted procedures (including the accelerated procedures) cannot be complied with. Therefore, this procurement is considered lawful under clause 32(2)(c) of the Public Contract Regulations 2015.
